## MELLO ROOS YEARLY FISCAL STATUS REPORTING FOR FISCAL YEAR 2012-13

Pursuant to the Communities Facilities District Act (more commonly known as the Mello-Roos Act), all issuers of Mello-Roos bonds after January 1, 1993 are required to submit annual Yearly Fiscal Status Reports (YFSRs) to the California Debt and Investments Advisory Commission (CDIAC) no later than October 30.<sup>1</sup> YFSRs for FY 2012-2013, covering the reporting period of July 1, 2012 through June 30, 2013, were due to CDIAC no later than October 30, 2013. Issuers must report each year until the bonds are no longer outstanding.

CDIAC's Data Collection and Analysis Unit (Data Unit) sends courtesy letters to issuers, or their designated disclosure reporting firms, to remind them of the reporting requirement – for 2013, letters were sent in July and August for nearly 1,400 Mello-Roos issuances. As of January 1, 2014, approximately 28 of the expected 1,380 reports remain outstanding. Although this is only 2 percent of the expected reports, our goal is 100 percent compliance.

To facilitate reporting, CDIAC developed the Mello-Roos YFSR to include the information that issuers are statutorily required to supply. That information includes, but is not limited to: the principal amount of the bonds outstanding; the balance of the bond reserve fund; the balance in the capitalized interest fund, if any; assessed value of all parcels; the number of delinquent parcels; and, information on the special tax amounts due and unpaid.

If you have not submitted your YFSR, please do so as soon as possible. CDIAC cannot complete the review and audit required to prepare the Annual Mello-Roos Yearly Fiscal Status Report and Summary until all YFSRs have been received.

## MARKS-ROOS LOCAL BOND POOLING ACT YEARLY FISCAL STATUS REPORTING (YFSR) FOR FISCAL YEAR 2012-2013

Local agencies who have issued debt under the Marks-Roos Local Bond Pooling Act (Marks-Roos) after January 1, 1996 must also submit YFSRs to CDIAC no later than October 30<sup>th</sup> annually.<sup>2</sup> YFSRs for FY 2012-2013, covering the reporting period of July 1, 2012 through June 30, 2013, were due to CDIAC no later than October 30, 2013. Issuers of Marks-Roos debt must also report each year until the bonds are no longer outstanding.

CDIAC developed three reports to facilitate reporting by issuers at the authority level who used bond proceeds to acquire local obligations including the purchase of local agency bonds or to make loans to local agencies. The reports are:

1. The Marks-Roos Yearly Fiscal Status Report for Authority Issue – used to report the fiscal status of the outstanding authority bonds;
2. The Marks-Roos Yearly Fiscal Status Report for Local Obligation Issue (LOB) – used to report the fiscal status of local obligation bonds purchased by an authority with bond proceeds; and

3. The Marks-Roos Yearly Fiscal Status Report of Loan Obligations (Loan) – used to report the fiscal status of loans to local agencies by an authority from bond proceeds.

Information that is statutorily required to be reported includes, but is not limited to: the principal amount of bonds outstanding; both authority bonds and local obligations; reserve fund balance; cost of issuance; administrative fees collected and charged to local agencies; and delinquency rates on local obligations.

For 2013, courtesy letters were sent in July and August requesting reports for 2,146 authority bond sales and local obligations and loans. To date, approximately 76 percent or 1,640 of the expected reports have been received. Figure 1 shows the breakdown of reports expected and received for FY 2012-2013.

Data Unit staff cannot complete the review and audit required to prepare the Marks-Roos Yearly Fiscal Status Report and Summary until all Marks-Roos YFSRs have been received.

## DRAW ON RESERVE AND DEFAULT REPORTING

Issuers of Mello-Roos and Marks-Roos debt are also required to report any draw on reserve that reduces the reserve fund to less than the reserve requirement and/or any default - the failure to pay principal and interest on any scheduled payment date, regardless of when the bonds were sold.<sup>3</sup> Under the Marks-Roos statute, this requirement applies to bonds issued by the authority or any bonds acquired

<sup>1</sup> California Government Code Section 53359.5(b).

<sup>2</sup> California Government Code Section 6599.1(b).

<sup>3</sup> California Government Code Section 53359.5(c).

**FIGURE 1**  
MARKS-ROOS YFSRs, EXPECTED VERSUS RECEIVED

by the authority. The notification must reach CDIAC within ten days of the event. In 2012, CDIAC added the ability for issuers to also voluntarily report when they replenished a previous draw on reserve. To facilitate reporting, the Draw on Reserve/Default/Replenishment Report for Mello-Roos/Marks-Roos Issue was developed.

All reports, the YFSRs and the Draw on Reserve/Default/Replenishment Report, may be completed electronically using our online forms located at [www.treasurer.ca.gov/cdiac/reporting.asp](http://www.treasurer.ca.gov/cdiac/reporting.asp). You must know the CDIAC issuance number and password assigned to the bonds to submit the reports on line. A mail-in version of all

reports is also available for download at the same web address.

If you need assistance in determining if you must file a YFSR, or you do not know your CDIAC issuance number or password please contact the Data Unit by email at [CDIAC\\_Issuance@treasurer.ca.gov](mailto:CDIAC_Issuance@treasurer.ca.gov) or by telephone at 916-653-3269.

# DODD-FRANK REFORM ACT CALENDAR OF EVENTS

Below are current MSRB or SEC events and activities related to the implementation of the Dodd-Frank Wall Street Reform and Consumer Protection Act.<sup>1</sup>

## UPDATES TO DECEMBER

- 5 MSRB received approval from the SEC to amend MSRB Rule G-11 (on primary offering practices). Amendments to Rule G-11 enhance protections for investors in municipal securities against unex-

pected changes in underlying bond authorizing documents, while accommodating issuers' legitimate interest in modernizing those documents. The amendments become effective February 3, 2014.

- 10 The SEC, along with the Board of Governors of the Federal Reserve System, the Federal Deposit Insurance Corporation, and the U.S. Department of the Treasury Office of the Comptroller of the Currency, adopted a final Volcker Rule, which is designed to significantly reduce risks to the economy and financial system as well as maintaining the strength of the U.S. capital markets. The rule becomes effective April 1, 2014.

- 13 MSRB requested public comment on a proposal to require dealers to ensure that members of their staff, who are primarily engaged in municipal securities business, annually receive training in municipal securities (MSRB Rule G-3).

## JANUARY

- 28 MSRB will host an education and outreach event for municipal market professionals in Atlanta, GA. Separate sessions will cover municipal advisor regulation, improving transparency of municipal bond prices, and the availability of educational resources for state and local governments that issue bonds.
