# INTRODUCTION

Constitutional and statutory provisions require voters to authorize general obligation (GO) bonds issued by state and local governments. For bonds issued by the state, the authorization must be made through a statewide election. Local bonds must be approved by voters within the jurisdiction authorizing the bond. The state and local governments must also seek voter approval for levies of certain revenue exactions and taxes. For both state and local measures, the voter approval threshold depends on the type and purpose of the bond or tax. (Figure 1)

After each statewide election, the California Debt and Investment Advisory Commission (CDIAC) publishes a statistical summary and review of bond and tax measures appearing on state and local ballots. This report, the 37<sup>th</sup> in the series, summarizes the results of bond and tax measures on the November 3, 2020, General Election ballot as well as local elections that occurred on May 5, 2020, and June 23, 2020. This report also contains appendices that summarize the measures by county, region, type of tax, and purpose.

## COMPARISON OF THE 2018 AND 2020 GENERAL ELECTIONS

- **COMPARATIVE PASSAGE RATES.** The passage rate of bond and tax measures during the 2020 General Election was slightly lower (74.2%) than the 2018 General Election (81.5%). (Figure 9)
- **COMPARATIVE NUMBER OF APPROVED MEASURES.** The 2020 General Election had both less measures on the ballot in 2020 (264) compared to 2018 (389) and had less measures approved in 2020 (196) compared to 2018 (317). (Figure 10)
- **SPECIAL TAX MEASURE PASSAGE RATES.** The passage rate for special tax measures was lower in 2020 (54.4%) than 2018 (64.1%). (Figure 10)
- **REGIONAL PASSAGE RATES.** Both in the 2020 and 2018 General Elections, the Bay Area region had the highest passage rate (85.9% in 2020 and 93.1% in 2018). Similarly, the Los Angeles region followed behind in second place in both the 2020 and 2018 General Elections (84.8% in 2020 and 86.3% in 2018). (Figure 11)

<sup>1</sup> Total does not include state measures as well as measures from the two local elections.

- **PASSAGE RATES BY PURPOSE.** In both 2020 and 2018, the passage rate for general government was the highest (81.0% in 2020 and 90.2% in 2018) The passage rate for education came in second in both 2020 and 2018 (78.4% in 2020 and 83.2% in 2018). (Figure 12)
- **COMPARATIVE NUMBER OF PROPOSED LOCAL MEASURES.** For both years, the highest percentage of proposed local measures was for general government in 2018 (47.3%) and in 2020 (51.9%). The lowest percentage of proposed local measures was for capital improvements in both the 2018 and 2020 General Elections. (Figure 12)
- **GENERAL GOVERNMENT MEASURE PASSAGE RATES.** General government measures had a lower passage rate in 2020 (81.0%) than 2018 (90.2%). (Figure 12)

## SUMMARY

While voters positively supported both the 2018 and 2020 General Election bond and tax measures, the 2020 General Election had fewer mea-

asures (389 and 264, respectively) and a lower passage rate than in 2018 (81.5% and 74.2%, respectively). The overall number of bond and tax measures in the 2020 General Election declined 32.1% from 2018. Contributing to the decrease, cannabis measures, which are included as general government measures in this analysis, significantly declined from 76 on the 2018 General Election ballot to only 26 on the ballot in the 2020 General Election. It is noteworthy that the type of measures on the General Election ballots for both elections are almost the same with general government and education measures comprising the majority of the ballot measures: 79.4% percent in 2018 and 79.9% in 2020.

Lastly, the approval rate for bond and tax measures in the 2020 General Election has significantly improved from the 2020 Primary Election held in March (74.2% and 38.6%, respectively). Since CDIAC's Primary Elections report, [Results of the 2020 Primary and Local Elections](#), there have been two local elections that presented voters with a total of six local tax measures, four of which received voter approval.

Figure 12 summarizes the types of projects appearing on the General Election ballots.
