# INTRODUCTION

Constitutional and statutory provisions require voters to authorize general obligation (GO) bonds issued by state and local governments. For bonds issued by the state, the authorization must be made through a statewide election. Local bonds must be approved by voters within the jurisdiction authorizing the bond. The state and local governments must also seek voter approval for levies of certain revenue exactions and taxes. For both state and local measures, the voter approval threshold depends on the type and purpose of the bond or tax (see Figure 1).

After each statewide election, the California Debt and Investment Advisory Commission (CDIAC) publishes a statistical summary and review of bond and tax measures appearing on state and local ballots. This report, the 31<sup>st</sup> in the series, summarizes the results of bond and tax measures on the November 8, 2016 General Election ballot. This report also contains appendices which summarize the measures by county, region, type of tax and purpose.

# NOVEMBER 2016 GENERAL ELECTION RESULTS

## SUMMARY

- *Total measures* – Voters considered seven statewide and 425 local fiscal measures. One local measure contained a special tax and GO bond combination.
- *Approved measures* – Voters approved 357 (82.6 percent) of the measures of which five were statewide measures and 352 local measures.
- *Passage rates* – Local GO bond measures received the greatest support from voters with a 94.8 percent approval rate. (Figure 2)

## TAX MEASURES

- *Support for tax measures* – Voters approved 72.9 percent of state and local (general and special) tax measures. (Figure 5)
- *Support for local general tax measures* – Local general tax measures were greatly supported (83.7 percent passage rate).
- *Majority vs. two-thirds voting requirement* – The general tax measures only needed a majority of the vote to pass. If these measures had a two-thirds voting requirement, only 39.3 percent would have passed. In contrast, special tax measures, which require two-thirds voter approval to pass, were less supported (57.3 percent passage rate). If these measures required a majority vote, 89.6 percent of the measures would have passed.
- *Purpose of taxes* – Most of the tax measures were general taxes for various general government purposes. The remaining measures were for other purposes such as capital improvements, public health and safety, and education. (Figure 6)

## RESULTS BY REGION

The election results are divided into five regions: Bay Area, Central Valley, Los Angeles, San Diego/Inland Empire, and Other. (Figure 7)

- *Approved Measures* – Bay Area region voters were presented with the most measures (107). Voters in multiple regions were presented with the least measures (nine).

- *Passage Rates* – The Los Angeles region had the highest passage for GO bond and tax measures (89.6 percent). The Central Valley region had the lowest passage rate (73.0 percent).

Figure 8 shows the number and percentage of measures that were approved by region.

# COMPARISON OF THE 2014 AND 2016 GENERAL ELECTIONS

- *Comparative passage rates* – The passage rate of bond and tax measures during the 2016 General Election was 82.6 percent, whereas the 2014 General Election passage rate was 70.6 percent.
  - *Comparative number of approved measures* – The number of approved measures in 2016 was 357 and the number of approved measures in 2014 was 180. It is important to note that the number of total measures in the 2016 General Election (432) is 1.7 times greater than in the 2014 General Election (255).
  - *General government measure passage rates* – General government measures had a lower passage rate in 2014 (62.5 percent) than 2016 (83.7 percent).
  - *Special tax measure passage rates* – The passage rate for special tax measures was lower in 2016 (57.9 percent) than 2014 (60.0 percent).
  - *Regional passage rates* – Excluding the "Multiple" region category, in the 2014 General Election, the Bay Area region had the highest passage rate in 2014 (82.4 percent), but the Los Angeles region had the highest passage rate (89.6 percent) in 2016.
  - *Passage rates by purpose* – In 2014 and 2016, the passage rate for education was the highest (82.6 percent and 93.1 percent, respectively).
  - *Comparative number of proposed local measures* – In both elections, the highest percentage of proposed local measures was for educational use. The lowest percentage of proposed local measures was for capital improvements in 2014 and public health and safety measures in 2016.
- Figure 9 provides a summary of the passage requirements for the bond and tax measures appearing on the 2014 General Election and the 2016 General Election ballots.
- Figure 10 provides a summary of the types of bond and tax measures on the General Election ballots.
- A summary of votes by regions is provided in Figure 11.

## SUMMARY

The 2016 General Election presented voters with 432 bond and tax measures, the most since CDIAC began tracking state and local elections in 1986. The record number of measures can be attributed to the large number of education measures (204), comprised mostly of K-14 GO bond measures (181). The largest K-14 GO bond measure was Proposition 51, the statewide measure, for \$9.0 billion. In addition, there were 39 cannabis tax measures proposed in anticipation of the passage of Proposition 64, the statewide measure to approve the legalization of marijuana for non-medicinal use for adults over 21. Furthermore, the approval rate of the 2016 General Election measures (82.6 percent) was far greater than the approval rate of the 2014 General Election (70.6 percent), with education measures receiving the greatest voter support in both elections.
