CALIFORNIA DEBT LIMIT ALLOCATION COMMITTEE

Public Benefit Analysis
Qualified Residential Rental Project Pool
Revised Round 3
2002

State and local governmental agencies and joint powers authorities can issue tax-exempt housing revenue bonds. These bonds assist developers of multifamily rental housing units to acquire land, construct new units or purchase and rehabilitate existing units. The tax-exempt bonds lower the interest rate paid by the developers. These developers produce market rate and affordable rental housing for low and very low-income households by reducing rental rates to these individuals and families.

The California Debt Limit Allocation Committee is responsible for administering California's annual tax-exempt private activity bond program, known as "the annual State ceiling". For calendar year 2002, California's State ceiling is \$2.587 billion. Each year the Committee divides the annual State ceiling among several bond programs, known as "Program Pools", including the Qualified Residential Rental Project (QRRP) Pool. For calendar year 2002, the Committee reserved approximately 51.9%, or \$1.343 billion of the State ceiling for the QRRP Pool. The \$1.343 billion of bond authority was allocated in three allocation rounds and to three sub-pools i.e., General Pool (Projects having more than 50% of its total units designated as Restricted Rental Units); Mixed Income Pool (Projects having 50% or fewer of its total units designated as Restricted Rental Units); and the Rural Project Pool (Projects located in a rural area defined by California Health and Safety Code Section 50199.21 but shall not include a Mixed Income Project).

The Committee awarded a total of \$626,718,269 for rental projects in the Third Allocation Round of 2002. Of which, \$381,222,846 was allocated to the General Pool, \$216,792,023 was allocated to the Mixed Income Pool and \$28,703,400 was allocated to the Rural Project Pool. These allocations financed 6,632 total units, of which 5,301 were Restricted Rental Units. Restricted Rental Units are units within a Project that are restricted to households earning 60% or less of the Applicable Median Family Income. Of the 5,301 Restricted Rental Units, 2,013 will be restricted to very low income households with incomes at or below 50% of the area median income and 3,288 units will be restricted to low income households with incomes at or below 60% of the area median income. Of the total 6,632 units financed with the allocation, 5,533 will be new construction units, 1,886 will be senior citizen units and 868 will be large family (3-4 bedroom) units and 118 will be special needs units designed for handicapped, Alzheimer, AIDS and other residents with distinctive needs. In addition, this allocation will preserve 280 income and rent restricted units that were at-risk of losing affordability restrictions.
