Report on the Financial Statements

We have audited the accompanying financial statements of the business-type activities of the California Educational Facilities Authority (CEFA), a related organization of the State of California, as of and for the years ended June 30, 2019 and 2018, and the related notes to the financial statements, which collectively comprise CEFA's basic financial statements as listed in the table of contents.

Management's Responsibility for the Financial Statements

Management is responsible for the preparation and fair presentation of these financial statements in accordance with accounting principles generally accepted in the United States of America; this includes the design, implementation, and maintenance of internal control relevant to the preparation and fair presentation of financial statements that are free from material misstatement, whether due to fraud or error.

Auditor's Responsibility

Our responsibility is to express an opinion on these financial statements based on our audits. We conducted our audits in accordance with auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards*, issued by the Comptroller General of the United States. Those standards require that we plan and perform the audit to obtain reasonable assurance about whether the financial statements are free from material misstatement.

An audit involves performing procedures to obtain audit evidence about the amounts and disclosures in the financial statements. The procedures selected depend on the auditor's judgment, including the assessment of the risks of material misstatement of the financial statements, whether due to fraud or error. In making those risk assessments, the auditor considers internal control relevant to the entity's preparation and fair presentation of the financial statements in order to design audit procedures that are appropriate in the circumstances, but not for the purpose of expressing an opinion on the effectiveness of the entity's internal control. Accordingly, we express no such opinion. An audit also includes evaluating the appropriateness of accounting policies used and the reasonableness of significant accounting estimates made by management, as well as evaluating the overall presentation of the financial statements.

We believe that the audit evidence we have obtained is sufficient and appropriate to provide a basis for our audit opinion.

Opinion

In our opinion, the financial statements referred to above present fairly, in all material respects, the financial position of the business-type activities of CEFA as of June 30, 2019 and 2018, and the changes in financial position and cash flows thereof for the years then ended in accordance with accounting principles generally accepted in the United States of America.

Other Matters

Required Supplementary Information

Accounting principles generally accepted in the United States of America require that the management's discussion and analysis, Schedule of CEFA's Proportionate Share of the Net Pension Liability, Schedule of Pension Contributions, Schedule of CEFA's Proportionate Share of the Net OPEB Liability, and Schedule of CEFA's Contributions, Other Postemployment Benefit Plan (on pages 3-7, 28, 29, 30, and 31, respectively), be presented to supplement the basic financial statements. Such information, although not a part of the basic financial statements, is required by the Governmental Accounting Standards Board, who considers it to be an essential part of financial reporting for placing the basic financial statements in an appropriate operational, economic, or historical context. We have applied certain limited procedures to the required supplementary information in accordance with auditing standards generally accepted in the United States of America, which consisted of inquiries of management about the methods of preparing the information and comparing the information for consistency with management's responses to our inquiries, the basic financial statements, and other knowledge we obtained during our audit of the basic financial statements. We do not express an opinion or provide any assurance on the information because the limited procedures do not provide us with sufficient evidence to express an opinion or provide any assurance.

Supplementary Information

Our audit was conducted for the purpose of forming opinions on the financial statements that collectively comprise CEFA's basic financial statements. The Statement of Bonds and Collateralized Notes, Authorized, Issued and Outstanding is presented for purposes of additional analysis and is not a required part of the basic financial statements.

The Statement of Bonds and Collateralized Notes, Authorized, Issued and Outstanding is the responsibility of management and was derived from and relates directly to the underlying accounting and other records used to prepare the basic financial statements. Such information has been subjected to the auditing procedures applied in the audit of the basic financial statements and certain additional procedures, including comparing and reconciling such information directly to the underlying accounting and other records used to prepare the basic financial statements or to the basic financial statements themselves, and other additional procedures in accordance with auditing standards generally accepted in the United States of America. In our opinion, the Statement of Bonds and Collateralized Notes, Authorized, Issued and Outstanding is fairly stated, in all material respects, in relation to the basic financial statements as a whole.

Other Reporting Required by Government Auditing Standards

In accordance with *Government Auditing Standards*, we have also issued our report dated May 21, 2020 on our consideration of CEFA's internal control over financial reporting and on our tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements and other matters. The purpose of that report is to describe the scope of our testing of internal control over financial reporting and compliance and the results of that testing, and not to provide an opinion on internal control over financial reporting or on compliance. That report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering CEFA's internal control over financial reporting and compliance.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2019 AND 2018

This section of the financial statements of the California Educational Facilities Authority (CEFA) presents management's discussion and analysis of the financial performance during the fiscal years that ended on June 30, 2019 and 2018. Please read it in conjunction with the financial statements that follow this section.

GENERAL BACKGROUND, OVERVIEW AND PROGRAMS

CEFA was established in 1973 for the purpose of issuing revenue bonds to assist private non-profit institutions of higher learning in the expansion and construction of educational facilities.

CEFA provides students with better access and broader opportunities in higher education by providing qualified non-profit private higher education institutions with the assistance needed to reduce their capital costs of financing academic related facilities through a tax-exempt revenue bond program.

Conduit Financing Activity

During the fiscal years ended June 30, 2019 and June 30, 2018, CEFA issued bonds totaling \$844,990,000 and \$375,895,000, respectively. As of June 30, 2019, CEFA's total conduit debt issued was approximately \$14 billion and the total conduit debt outstanding was approximately \$4.8 billion. As of June 30, 2018, CEFA's total conduit debt issued was approximately \$13.1 billion and total conduit debt outstanding was approximately \$4.1 billion.

OVERVIEW OF THE FINANCIAL STATEMENTS

The financial statements of CEFA include the Independent Auditor's Report, Management's Discussion and Analysis (MD&A), basic financial statements, accompanying notes and supplemental information.

REQUIRED FINANCIAL STATEMENTS

CEFA's financial statements report information using accounting methods similar to those used by private sector companies. These statements offer both short-term and long-term financial information about its activities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2019 AND 2018

The *Balance Sheets* include CEFA's assets, liabilities, and net position for the years ended June 30, 2019 and 2018 and provide information about the nature and amounts of investments in resources (assets) and the obligations to CEFA's creditors (liabilities) (see Table 1).

CEFA's Total Liabilities, Deferred Inflows of Resources, and Net Position was \$1,265,887 as of June 30, 2019, which was a decrease from \$1,389,251 as of June 30, 2018. Non-current liabilities fluctuated over the three fiscal years in review and can be attributed to fluctuations in pensions and Other Post-Employment Benefits (OPEB) liabilities.

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2019 AND 2018

The *Statements of Revenues, Expenses, and Changes in Net Position* accounts for all of the revenue earned and expenses incurred by CEFA for the years ended June 30, 2019 and 2018. These statements reflect the results of CEFA's operations in each of the respective years (see Table 2).

Net Position - Beginning of Year, as restated in FY 2018	<u>(1,773,583)</u>	<u>(1,405,143)</u>	<u>501,940</u>
Net Position - End of Year	<u>\$ (1,000,394)</u>	<u>\$ (1,773,583)</u>	<u>\$ (113,143)</u>

For the fiscal year ended June 30, 2019, CEFA's Change in Net Position of \$773,189 reflects a significant increase from fiscal year end June 30, 2018. This change can be attributed to increased revenue and a credit balance to pension and OPEB expenses in fiscal year end June 30, 2019. For fiscal year ended June 30, 2019, CEFA collected more revenue in annual administrative fees and initial fees than previous fiscal years as well as received reimbursements from the California Health Facilities Financing Authority and the College Access Tax Credit Fund for CEFA staff hours worked on these programs. Additionally, CEFA's proportionate share of pension liabilities compared to the State as a whole decreased, while the proportionate share of OPEB liabilities decreased, due to a change in the basis for determining each fund's share. As these changes in liabilities are expensed all at once rather than amortized, these liabilities account for the one-time significant decrease in total operating expenses.

CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

MANAGEMENT'S DISCUSSION AND ANALYSIS FOR THE YEARS ENDED JUNE 30, 2019 AND 2018

The *Statements of Cash Flows* provide information about CEFA's cash receipts and cash payments during the years ended June 30, 2019 and 2018. These statements report cash receipts, cash payments, and net changes in cash resulting from operations, capital and related financing, noncapital financing and investment activities. The statements provide answers to questions of where cash came from, what cash was used for, and what caused changes in cash for the reporting period covered (see Table 3).

	<u>2019</u>	<u>2018</u>	<u>2017</u>
Cash Flows From Operating Activities			
Net Cash Provided (Used) by Operating Activities	\$ (334,973)	\$ (336,622)	\$ (575,836)
Cash Flows from Investing Activities			
Net Cash Provided by Investing Activities	<u>17,269</u>	<u>12,498</u>	<u>10,152</u>

Beginning Cash and Cash Equivalents	<u>880,020</u>	<u>1,204,144</u>	<u>1,769,828</u>
Ending Cash and Cash Equivalents	<u>\$ 562,316</u>	<u>\$ 880,020</u>	<u>\$ 1,204,144</u>

The Ending Cash and Cash Equivalents declined in fiscal year ending June 30, 2019 from \$880,020 to \$562,316. Although there was a net decrease in cash, the amount was less than previous fiscal year ends. Additionally, it is important to note that there was an increase in Accounts Receivable (amounts billed by CEFA and yet to be collected as part of Current Assets on the Balance Sheets) from \$105,793 on fiscal year ended June 30, 2018 to \$336,995 on fiscal year ended June 30, 2019. Once funds are collected, the Cash and Cash Equivalents fund balance will reflect an increase.

CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

1. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

A. GENERAL

The California Educational Facilities Authority (CEFA) was created by Chapter 1432, Statutes of 1972, which became effective March 7, 1973, and was subsequently amended. Legislation pertaining to the Act is contained in Division 10, Part 59, Chapter 2 of the Education Code commencing with Code Section 94100. Effective January 1, 1996, legislation was passed to consolidate the California Student Loan Authority (CSLA) with CEFA. The Educational Facilities Authority Fund (EFAF) is maintained within CEFA.

CEFA was created for the purpose of issuing revenue bonds to assist California private non-profit institutions of higher learning in the expansion and construction of educational facilities. Because it is authorized to issue tax-exempt bonds, CEFA may provide more favorable financing to such private institutions to reduce their capital costs of financing.

The law specifically provides that bonds issued under the Act shall not be a debt, liability or claim on the faith and credit or the taxing power of CEFA, the State of California, or any of its political subdivisions. The full faith and credit of the participating institutions, however, is normally pledged to the payment of the bonds. Bonds are issued at either public or private sales after details of the proposed project and satisfactory evidence of the ability of the participating institution to meet financial obligations have been submitted to CEFA and approved by the Board.

The CSLA was originally established for the primary purpose of financing insured student and parent loans directly to students. Following the consolidation with CEFA, CEFA is authorized to issue negotiable revenue bonds in order to provide funds for achieving its purposes and to assign and pledge all or any portion of its interests in insured loans or the revenue there from for the benefit of holders of CEFA's bonds. Neither the full faith and credit nor the taxing power of the State of California or its political subdivisions is liable for payment of the debt of the CEFA.

CEFA contracts with the California State Treasurer's Office to provide administrative support including, but not limited to accounting, budgets, data processing, personnel, legal, insurance, and business services.

B. THE REPORTING ENTITY

These financial statements present information on the financial activities of CEFA. CEFA is a related organization of the State of California. The California State Treasurer by legislation serves as the Chairperson and is responsible for the oversight of CEFA.

C. BASIS OF PRESENTATION

As an enterprise fund, the accrual basis of accounting is utilized, whereby revenues are recorded when earned and expenses are recognized in the accounting period in which the liability is incurred (when goods are received or services rendered). The financial statements of CEFA have been prepared in conformity with accounting principles generally accepted in the United States of America as applied to governmental agencies. The Governmental Accounting Standards Board (GASB) is the accepted standard-setting body for establishing governmental accounting and financial reporting principles.

CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

D. ACCOUNTS RECEIVABLE

Accounts receivable consist primarily of bond issuance, application and administrative fees.

E. REVENUES

Fees are for the staff work related to bond and equipment financing and post-issuance activities and for the review of bond transactions.

Bond financing program fees are as follows:

Closing Date of Issuance	Application Fee	Initial Fee	Annual Administrative Fee
December 5, 2013 – June 30, 2019:	\$1,000, applied to the Initial Fee at closing	0.15% of the par amount up to \$10,000,000, plus 0.05% of the par amount in excess of \$10,000,000, up to a maximum fee of \$75,000	For issuances closed on or before July 31, 2013: \$500 annually. For issuances closed August 1, 2013 and thereafter: 0.015% of the par amount outstanding, up to a maximum fee of \$12,000.

Equipment financing program fees are as follows:

Closing Date of Issuance	Application Fee	Initial Fee	Annual Administrative Fee
July 1, 2013 – June 30, 2019:	None	0.075% of the financed amount	\$500 annually for the first five years, \$250 annually thereafter. Fee is waived for participants with other outstanding CEFA debt.

Fees are used to cover operating costs such as general communications, printing, professional services both internal and external, facilities operations, employee benefits, and other miscellaneous operating expenses, in addition to salaries and wages.

Cash is held by Surplus Money Investment Fund (SMIF) and generates investment income.

CEFA distinguishes operating revenues and expenses from nonoperating items. Operating revenues and expenses generally result from issuing bonds.

F. BUDGET

As an enterprise fund, CEFA is designed to be self-supporting, and therefore are not considered a budgetary fund. The California Educational Facilities Authority Act (Education Code Section 94100 et. seq.) do not require annual budgets or the establishment of appropriation limits. Section 94141 specifically limits expenses to moneys from revenues generated by operations.

CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

G. CASH AND CASH EQUIVALENTS

CEFA considers all short-term investments with an original maturity of three months or less to be cash equivalents.

H. CAPITAL ASSETS

Capital assets are defined as assets with a useful life of at least one year and a unit acquisition cost of at least \$5,000. Equipment is depreciated using the straight-line method over five years. Computer software is amortized using the straight-line method over 3 years.

I. RISK MANAGEMENT

CEFA is a related organization of the State of California and participates in their risk management program. The State of California is primarily self-insured against loss or liability, with a few exceptions. The State generally does not maintain reserves; losses are covered by appropriations in the year in which the payment occurs. CEFA has not had any claims subject to this coverage in the last ten years. Additional disclosures are presented in the financial statements of the State of California.

J. ACCRUED VACATION

The accrued liability for vacation compensation is recognized as an expense and liability in CEFA's financial statements. Additionally, accumulated sick-leave balances are not recorded as compensated absences because they do not vest to employees. However, unused sick-leave balances convert to service credits upon retirement.

K. PENSION

For purposes of measuring the net pension liability and deferred outflows/inflows of resources related to pensions, and pension expense, information about the fiduciary net position of CEFA's portion of the California Public Employees' Retirement System (CalPERS) Miscellaneous plan (Plan) and additions to/deductions from the Plan's fiduciary net position have been determined on the same basis as they are reported by CalPERS. For this purpose, benefit payments (including refunds of employee contributions) are recognized when due and payable in accordance with the benefit terms. Investments are reported at fair value.

L. OTHER POSTEMPLOYMENT BENEFITS (OPEB)

For purposes of measuring the net OPEB liability, deferred outflows of resources and deferred inflows of resources related to OPEB, and OPEB expense, information about the fiduciary net position of Administrative Fund's portion of the State Substantive Plan (OPEB Plan) and additions to/deductions from OPEB Plan's fiduciary net position have been determined on the same basis. For this purpose, benefit payments are recognized when currently due and payable in accordance with the benefit terms. Investments are reported at fair value.

M. NET POSITION

Net position is restricted by enabling legislation for the purposes of issuing revenue bonds to assist private non-profit institutions of higher learning in the expansion and construction of educational facilities.

N. USE OF ESTIMATES TO PREPARE FINANCIAL STATEMENTS

Management uses estimates and assumptions in preparing financial statements in accordance with accounting principles generally accepted in the United States of America. Those estimates and assumptions affect the reported amount of assets and liabilities, the disclosure of contingent assets and liabilities, and the reported revenues and expenses. Actual results could vary from the estimates that were assumed in preparing the financial statements.

O. RECLASSIFICATION

Certain prior year numbers have been reclassified to match current year presentation.

2. CASH AND CASH EQUIVALENTS IN STATE TREASURY

CEFA considers all short-term investments with an original maturity of three months or less to be cash equivalents. Cash and equivalents in the State Treasury as June 30 were as follows:

	<u>2019</u>	<u>2018</u>
Deposits in SMIF	\$ 547,000	\$ 875,000
Cash in State Treasury	<u>15,316</u>	<u>5,020</u>
Total Cash and Investments	<u>\$ 562,316</u>	<u>\$ 880,020</u>

The investments must be allowable through the Pooled Money Investment Account (PMIA), which is operated by the State Treasurer's Office, which invests under statutory authority granted by California Government Code Sections 16430 and 16480.4. Allowable investments are as follows:

- U.S. government securities
- Securities of federally-sponsored agencies
- Domestic corporate bonds
- Interest-bearing time deposits in California banks
- Savings and loan associations and credit unions
- Prime-rated commercial paper
- Repurchase and reverse repurchase agreements
- Security Loans
- Banker's Acceptances
- Negotiable certificates of deposits
- Loans to various bond funds

CEFA invests excess cash funds in SMIF. All of the resources of SMIF are invested through the PMIA. The PMIA investment program is governed by the Pooled Money Investment Board and is administered by the office of the State Treasurer.

Additional disclosure detail required by GASB Statements No. 3, No. 31, No. 40, and No. 72 regarding cash deposits and investments in State Treasury, including disclosures related to interest rate risk, credit risk, custodial credit risk, and concentration of credit risk, are presented in the financial statements of the State of California.

5. ACCRUED VACATION

CEFA employees are granted vacation and sick leave in varying amounts, depending upon the employee. These hours are accrued for all employees on the basis of monthly payrolls. Upon separation, employees are paid for accumulated vacation days up to specified limits. Accrued vacation and sick leave follow State employees from agency to agency and are not necessarily earned since the inception of CEFA's fund.

Accrued vacation activity for the year ended June 30, 2019, was as follows:

	<u>Balance</u> <u>June 30, 2018</u>	<u>Additions</u>	<u>Reductions</u>	<u>Balance</u> <u>June 30, 2019</u>	<u>Due Within</u> <u>One Year</u>

6. RETIREMENT PLAN

A. General Information about the Pension Plan

Plan Descriptions – All of the employees of CEFA participate in the California Public Employees' Retirement System (CalPERS), which is included in the State of California's (State) Comprehensive Annual Financial Report as a fiduciary component unit. CalPERS administers the Public Employees' Retirement Fund (PERF). PERF is an agent multiple-employer defined benefit retirement plan. Departments and agencies within the State, including CEFA, are in a cost-sharing arrangement in which all risks and costs are shared proportionately by participating State agencies. Since all State agencies and certain related organizations, including CEFA, are considered collectively to be a single employer for plan purposes, the actuarial present value of vested and non-vested accumulated plan benefits attributable to the CEFA employees cannot be determined. The significant actuarial assumptions used to compute the actuarially determined State contribution requirements are the same as those used to compute the State pension benefit obligation as defined by CalPERS. CalPERS issues a publicly available financial report that includes financial statements and required supplementary information for this plan. This report is available online at www.calpers.ca.gov

The California Legislature passed and the Governor signed the "Public Employees' Pension Reform Act of 2013" (PEPRA) on September 12, 2012. PEPRA contained a number of provisions intended to reduce future pension obligations. PEPRA primarily affects new pension plan members who are enrolled for the first time after December 2012. Benefit provisions and other requirements are established by State statute.

Benefits Provided – The benefits for the Plan are based on members’ years of service, age, final compensation, and benefit formula. Benefits are provided for disability, death, and survivors of eligible members or beneficiaries. Members become fully vested in their retirement benefits earned to date after five or ten years of credited service.

The Plan’s provisions and benefits are summarized as follows:

First Tier:

	<u>Prior to January 15, 2011</u>	<u>January 15, 2011 to December 31, 2012</u>	<u>On or after January 1, 2013</u>

Monthly benefits, as a % of eligible compensation	1.0 to 2.5%	1.092 to 2.418%	1.0 to 2.5%

Second Tier:

	<u>Prior to January 1, 2013</u>	<u>On or after January 1, 2013</u>
Hire date		
Benefit formula	1.25% @ 65	1.25% @ 67
Benefit vesting schedule	10 years service	10 years service
Benefit payments	monthly for life	monthly for life
Retirement age	50 to 67	52 to 67
Monthly benefits, as a % of eligible compensation	0.5 to 1.25%	0.65 to 1.25%

Contributions – Section 20814(c) of the California Public Employees Retirement Law (PERL) requires that the employer contribution rates for all public employers be determined on an annual basis by the actuary and shall be effective on the July 1 following notice of a change in the rate. The total plan contributions are determined through the CalPERS’ annual actuarial valuation process. The actuarially determined rate is the estimated amount necessary to finance the costs of benefits earned by employees during the year, with an additional amount to finance any unfunded accrued liability. CEFA is required to contribute the difference between the actuarially determined rate and the contribution rate of employees.

For the measurement period ended June 30, 2018 (the measurement date), the employer’s contribution rate is approximately 28.325% of annual payroll. For the measurement period ended June 30, 2017, the employer’s contribution rate was approximately 26.900% of annual payroll.

These rates reflect PERL Section 20683.2, which mandates that certain employees must contribute more as of July 1, 2013. Furthermore, any reduction in employer contributions due to the increase in the employee contributions must be paid by the employer towards the unfunded liability. It is the responsibility of the employer to make necessary accounting adjustments to reflect the impact due to any Employer Paid Member Contributions or situations where members are paying a portion of the employer contribution. Contributions to the Plan were \$72,170 and \$68,654 for the fiscal years ended June 30, 2019 and 2018, respectively.

CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

In addition to CEFA's contributions to the plan, during the year ended June 30, 2018, the State Surplus Money Investment Fund (SMIF) made a contribution to the Plan of \$111,000, on behalf of CEFA, as required by Senate Bill No. 84, Chapter 50, Statutes of 2017 (SB 84), to fund future Net Pension Liabilities. CEFA established a loan payable to SMIF for this contribution as required by SB 84. This loan payable is required to be repaid by CEFA by June 30, 2030.

B. Pension Liabilities, Pension Expense and Deferred Outflows/Inflows of Resources Related to Pensions

As of June 30, 2019 and 2018, CEFA reported net pension liabilities for their proportionate shares of the net pension liability of \$619,197 and \$1,122,077, respectively.

CEFA's net pension liability for the Plan is measured as the proportionate share of the net pension liability. The net pension liability of the Plan is measured as of June 30, 2018, and the total pension liability for the Plan used to calculate the net pension liability was determined by an actuarial valuation as of June 30, 2017 rolled forward to June 30, 2018 using standard update procedures. CEFA's proportion of the net pension liability was based on the State Controller's Office (SCO) projection for CEFA. The SCO identified a total of 29 entities that are reported in the State's CAFR which are proprietary funds (enterprise and internal service) and fiduciary funds (pension and other employee benefit trust funds), component units (discretely presented and fiduciary), and related organizations, that have State employees with pensionable compensation (covered payroll). The SCO calculated and provided these funds/organizations with their allocated pensionable compensation percentages by plan. CEFA's proportionate share of the net pension liability for the Plan as of June 30, 2018 and 2017 was 0.00197% and 0.00307%, respectively.

For the year ended June 30, 2019 and 2018, CEFA's recognized pension expense was \$9,135 and \$148,026, respectively.

At June 30, 2019, CEFA's reported deferred outflows of resources and deferred inflows of resources related to pensions from the following sources:

	Deferred Outflows of Resources	Deferred Inflows of Resources
Pension contributions subsequent to measurement date	\$ 72,170	\$ -
Change in assumptions	55,854	(20,530)
Change in proportion and proportionate share of contributions	30,854	(242,107)

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

Actuarial Assumptions – For the measurement period ended June 30, 2018 (the measurement date), the total pension liability was determined by rolling forward the June 30, 2017 total pension liability. The June 30, 2018 total pension liability was based on the following actuarial assumptions:

Actuarial Cost Method	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	7.15%
Inflation	2.50%
Interest Rate of Return	7.15%
Salary Increases	Varies by Entry Age and Service
Mortality Rate Table ⁽¹⁾	Derived using CalPERS' Membership data for all Funds
Post Retirement Benefit Increase	Contract COLA up to 2.00% until Purchasing Power Protection Allowance Floor on Purchasing Power applies, 2.50% thereafter

⁽¹⁾ The mortality rate table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using Society of Actuaries Scale 90% of scale MP 2016. For more details on this table, please refer to the 2017 Experience Study and Review of Actuarial Assumptions Report (Experience Study).

All other actuarial assumptions used in the June 30, 2017 valuation were based on the results of an actuarial experience study for the period from 1997 to 2011, including updates to salary increase, mortality and retirement rates. The Experience Study report can be obtained at CalPERS' website under Forms and Publications.

Changes in Assumptions – For the measurement period ended June 30, 2018 (the measurement date), demographic assumptions and inflation rate were changed in accordance to the CalPERS Experience Study and Review of Assumptions December 2017. For the measurement period ended June 30, 2017 (the measurement date), the discount rate was reduced from 7.65% to 7.15%.

Discount Rate – The discount rate used to measure the total pension liability was 7.15% for the Plan. The projection of cash flows used to determine the discount rate assumed the contributions from plans members will be made at the current member contribution rates and that contributions from employers will be made at statutorily required rates, actuarially determined. Based on those assumptions, the Plans' fiduciary net position was projected to be available to make all projected future benefit payments of current plan members. Therefore, the long-term expected rate of return on plan investments was applied to all periods of projected benefits payments to determine the total pension liability. CalPERS' approach for the cash flow projections are presented in the GASB 67 and 68 Crossover Testing Report, which may be obtained from the CalPERS' website.

The long-term expected rate of return on pension plan investments was determined using a building-block method in which best-estimate ranges of expected future real rates of return (expected returns, net of pension plan investment expense and inflation) are developed for each major asset class.

In determining the long-term expected rate of return, CalPERS took into account both short-term and long-term market return expectations as well as the expected pension fund cash flows. Such cash flows were developed assuming that both members and employers will make their required contributions on time and as scheduled in all future years. Using historical returns of all the funds' asset classes, expected

CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

compound returns were calculated over the short-term (first 10 years) and the long-term (11-60 years) using a building-block approach. Using the expected nominal returns for both short-term and long-term, the present value of benefits was calculated for each fund. The expected rate of return was set by calculating the single equivalent expected return that arrived at the same present value of benefits for cash flows as the one calculated using both short-term and long-term returns. The expected rate of return was then set equivalent to the single equivalent rate calculated above and rounded down to the nearest one quarter of one percent.

The table below reflects the long-term expected real rate of return by asset class. The rate of return was calculated using the capital market assumptions applied to determine the discount rate and asset allocation.

7. OTHER POST-EMPLOYMENT BENEFITS (OPEB)

A. General Information about the OPEB Plan

Plan Description - The State also provides postemployment medical and prescription drug benefits to employees and dependents through CalPERS under the Public Employees’ Medical and Hospital Care Act, and dental benefits under the State Employees’ Dental Care Act. The State, and certain bargaining units and judicial employees (valuation groups) have agreed to prefund retiree healthcare benefits. Assets are held in separate accounts by valuation group within the California Employers’ Retiree Benefit Trust (CERBT) administered by CalPERS, an agent multiple-employer defined benefit other postemployment benefits plan (State’s Substantive Plan). Assets within each valuation group benefit retirees and dependents associated with that valuation group. CalPERS reports on the CERBT as part of it separately issued annual financial statements, which can be obtained from CalPERS on its website at www.CalPERS.ca.gov.

The State has identified 25 separate valuation groups within the State Substantive Plan. For the measurement date June 30, 2018, for each agency and/or fund, the SCO determined the proportion of OPEB employer contributions attributable to employees within these valuation groups. For the measurement date June 30, 2017, for each agency and/or fund, the SCO determined the proportion of pensionable compensation attributable to employees with these valuation groups. SCO then used these proportions to allocate the OPEB accounting elements from the June 30, 2018, and June 30, 2017, respectively, State of California Retiree Health Benefits Program Actuarial Valuation Report to State agencies and their funds.

Benefits Provided - In accordance with the California Government Code, the State generally pays 100% of the health insurance premium cost for annuitants, plus 90% of the additional premium required for the enrollment of family members of annuitants. The State generally pays all or a portion of the dental insurance premium cost for annuitants, depending upon the completed years of credited state service at retirement and the dental coverage selected. The maximum 2018 monthly State contribution was \$725 for one-party, \$1,377 for two-party coverage, and \$1,766 for family coverage. The maximum 2017 monthly State contribution was \$707 for one-party, \$1,349 for two-party coverage, and \$1,727 for family coverage. To be eligible for these benefits, primary government first-tier plan annuitants must retire on or after age 50 with at least five years of service, and second tier plan annuitants must retire on or after age 55 with at least 10 years of service. In addition, annuitants must retire within 120 days of separation from employment to be eligible to receive these benefits.

CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

Contributions - The design of the health and dental benefit programs can be amended by the CalPERS Board of Administration and the California Department of Human Resources, respectively. Employer and retiree contributions are governed by the State and may be amended by the Legislature.

CEFA participates in the State's Substantive Plan on a cost-sharing basis. The State funds the cost of providing health and dental insurance to annuitants primarily on a pay-as-you-go basis. The State obtains an annual actuarial valuation of the State's Substantive Plan which can be found on the SCO's website at www.sco.ca.gov. Contributions to the State's Substantive Plan from CEFA were \$29,000 and \$25,433 for the fiscal years ended June 30, 2019 and 2018, respectively.

B. Net OPEB Liability, OPEB Expense and Deferred Outflows/Inflows of Resources Related to OPEB

At June 30, 2019 and 2018, CEFA reported a liability of \$1,020,000 and \$1,714,000, respectively, for its proportionate share of the State's Substantive Plan net OPEB liability. The net OPEB liability at June 30, 2019 was measured as of June 30, 2018, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2018. The net OPEB liability at June 30, 2018 was measured as of June 30, 2017, and the total OPEB liability used to calculate the net OPEB liability was determined by an actuarial valuation as of June 30, 2017. CEFA's proportion of the net OPEB liability was based on the SCO's projection for CEFA. CEFA's combined proportionate share, based on its attributable employee valuation groups OPEB employer contributions as of June 30, 2018, and based on its attributable employee valuation groups pensionable compensation as of June 30, 2017 was 0.003308% and 0.0022135%, respectively.

For the fiscal year ended June 30, 2019 and 2018, CEFA recognized OPEB expense of \$(651,567) and \$74,567, respectively.

At June 30, 2019, CEFA reported deferred outflows of resources and deferred inflows of resources related to OPEB from the following sources:

Actuarial Assumptions

For the measurement period ended June 30, 2018 (the measurement date), the total OPEB liability was determined using a June 30, 2018 valuation date. The June 30, 2018 total OPEB liability was based on the following actuarial methods and assumptions:

Valuation Date:	June 30, 2018
Actuarial Cost Method:	Entry-Age Normal
Actuarial Assumptions:	
Discount Rate	Blended rate for each valuation group, consisting of 7.00% when assets are available to pay benefits, otherwise 20-year Municipal G.O. Bond AA Index rate of 3.62%
Inflation	2.50%
Salary Increases	Varies by entry age and service
Investment Rate of Return	7.00%, net of OPEB plan investment expenses but without reduction for OPEB plan administrative expenses
Health care cost trend rates	<i>Pre-Medicare coverage:</i> Actual rates for 2019, increasing to 7.50% in 2020, then decreasing 0.50% per year to an ultimate rate of 4.50% for 2026 and later years <i>Post-Medicare coverage:</i> Actual rates for 2019, increasing to 8.00% in 2020, decreasing 0.50% per year to an ultimate rate of 4.50% for 2027 and later years <i>Dental coverage:</i> 0.26% in 2019 and 4.50% thereafter
Mortality Rate Table	Derived using CalPERS' Membership data for all members

The mortality table used was developed based on CalPERS' specific data. The table includes 15 years of mortality improvements using the Society of Actuaries 90% Scale MP 2016. For more details on this table, refer to the 2017 *CalPERS Experience Study and Review of Actuarial Assumptions* report (Experience Study) for the period from 1997 to 2015. Other demographic assumptions used in the June 30, 2018 valuation were also based on the results of the Experience Study, including updates to termination, disability, mortality assumptions, and retirement rates. The Experience Study report can be obtained from CalPERS' website, at www.CalPERS.ca.gov.

Healthcare related assumptions such as plan participation, aging factors, adjustments for disabled members, and adjustments for children of current retirees and survivors are based on the 2015 experience study performed by Gabriel, Roeder, Smith and Company (GRS) for the period from 2007 to 2014. Other healthcare assumptions such as member healthcare plan selection, coverage and continuance, select and ultimate healthcare cost trend rates, and per capita claim costs and expenses, are based on the most current information available. To obtain a copy of the GRS experience study please email the State Controller's Office, State Accounting and Reporting Division, at StateGovReports@sco.ca.gov.

Changes in Assumptions – For the actuarial valuation as of June 30, 2018, healthcare related assumptions, including per capita healthcare cost and healthcare trend rates, were updated based on experience through June 30, 2018.

NOTES TO FINANCIAL STATEMENTS JUNE 30, 2019 AND 2018

Discount Rate – The discount rate used to measure the total OPEB liability was based on a blended rate for each valuation group. The blended rate used to measure the June 30, 2018 total OPEB liability consists of the 20-Bond G.O. Index rate of 3.62% as of June 30, 2018, as reported by Fidelity, when prefunding assets are not available to pay benefits, and 7.00% when prefunding assets are available to pay benefits. The cash flow projections used to calculate the blended discount rate were developed assuming that prefunding agreements in which actuarially determined normal costs are shared between employees and the State will continue and that the required contributions will be made on time and as scheduled in future years. The prefunding agreements are subject to collective bargaining and legislative approval. Detailed information on the blended discount rates by valuation group is available in the *State of California Retiree Health Benefits Program GASB Nos. 74 and 75 Actuarial Valuation Report as of June 30, 2018*, on the State Controller’s Office website, at www.SCO.ca.gov.

The long-term expected rate of return on OPEB plan investments was determined by CalPERS using a building-block method in which expected future real rates of return (expected returns, net of OPEB plan investment expense and inflation) are developed for each major asset class. Expected compound (geometric) returns were calculated over a closed period. Based on separate expected nominal returns for the short-term (first 10 years) and the long-term (11+ years), a single expected return rate of 7.00% was calculated for the combined short-term and long-term periods.. If applied to expected cash flows during that period, the resulting present value of benefits is expected to be consistent with the present value of benefits that would be determined by applying the short and long-term expected rates to the same cash flows.

The following table reflects the long-term expected real rate of return by asset class:

<u>Asset Class</u>	<u>Target Allocation</u>	<u>Real Return Years 1 - 10</u>	<u>Real Return Years 11+</u>
Global Equity	59.00%	4.80%	5.98%
Fixed Income	25.00%	1.10%	2.62%
Treasury Inflation-Protected Securities	5.00%	0.25%	1.46%
Real Estate Investment Trusts	8.00%	3.50%	5.00%
Commodities	3.00%	1.50%	2.87%

The Real Return Years 1 – 10 used an expected inflation rate of 2.00% for this period. The Real Return Years 11+ used an expected inflation rate of 2.92% for this period.

Sensitivity of CEFA’s Proportionate Share of the Net OPEB Liability to Changes in the Discount Rate

The following presents CEFA’s proportionate share of the net OPEB liability, as well as what CEFA’s proportionate share of the net OPEB liability would be if it were calculated using a discount rate that is 1 percentage-point lower or 1 percentage-point higher than the current discount rate:

	<u>Blended Discount Rate –1%</u>	<u>Blended Discount Rate</u>	<u>Blended Discount Rate +1%</u>
Net OPEB liability	\$ 1,204,539	\$ 1,020,000	\$ 878,133

OPEB Plan Fiduciary Net Position - Detailed information about the State's Substantive Plan fiduciary net position is available on CalPER's website in an annual report titled "California Employers' Retiree Benefit Trust, Agent Multiple-Employer Other Postemployment Benefits Plan, Schedule of Changes in Fiduciary Net Position by Employer". Additionally, CalPERS annually issues a Comprehensive Annual Financial Report which includes the CERBT fund's financial statements.

8. CONDUIT FINANCING PROGRAMS

CEFA acts as a conduit issuer by assisting eligible private nonprofit institutions of higher learning in obtaining financing through the issuance of revenue bonds. The financings are secured by the full faith and credit of the participating institutions, and CEFA is not responsible for payment on any financing. As a result, the financing obligations are not recorded in CEFA's financial statements. The borrowers' obligations generally are, but need not be, secured by insurance, a letter of credit or guaranty.

As of June 30, 2019 and 2018, there were \$4,767,113,440 and \$4,119,115,560, respectively, in conduit financings outstanding. CEFA assisted with the issuance of financings in the amount of \$844,990,000 and \$375,895,000 for the years ended June 30, 2019 and 2018, respectively. Additionally, the amounts of bonds authorized by CEFA with active resolutions that remain unsold were \$235,680,000 and \$1,013,520,000 as of June 30, 2019 and 2018, respectively.

**REPORT ON INTERNAL CONTROL OVER FINANCIAL REPORTING
AND ON COMPLIANCE AND OTHER MATTERS BASED ON AN AUDIT
OF FINANCIAL STATEMENTS PERFORMED IN ACCORDANCE WITH
*GOVERNMENT AUDITING STANDARDS***

Independent Auditor's Report

**CEFA Members
California Educational Facilities Authority
Sacramento, California**

We have audited, in accordance with the auditing standards generally accepted in the United States of America and the standards applicable to financial audits contained in *Government Auditing Standards* issued by the Comptroller General of the United States, the financial statements of the business-type activities of the California Educational Facilities Authority (CEFA), as of and for the year ended June 30, 2019, and the related notes to the financial statements, which collectively comprise CEFA's basic financial statements, and have issued our report thereon dated May 21, 2020.

Internal Control Over Financial Reporting

In planning and performing our audit of the financial statements, we considered CEFA's internal control over financial reporting (internal control) to determine the audit procedures that are appropriate in the circumstances for the purpose of expressing our opinion on the financial statements, but not for the purpose of expressing an opinion on the effectiveness of CEFA's internal control. Accordingly, we do not express an opinion on the effectiveness of CEFA's internal control.

A deficiency in internal control exists when the design or operation of a control does not allow management or employees, in the normal course of performing their assigned functions, to prevent, or detect and correct, misstatements on a timely basis. A material weakness is a deficiency, or a combination of deficiencies, in internal control, such that there is a reasonable possibility that a material misstatement of the entity's financial statements will not be prevented, or detected and corrected on a timely basis. A significant deficiency is a deficiency, or a combination of deficiencies, in internal control that is less severe than a material weakness, yet important enough to merit attention by those charged with governance.

Our consideration of internal control was for the limited purpose described in the first paragraph of this section and was not designed to identify all deficiencies in internal control that might be material weaknesses or significant deficiencies. Given these limitations, during our audit we did not identify any deficiencies in internal control that we consider to be material weaknesses. However, material weaknesses may exist that have not been identified.

Compliance and Other Matters

As part of obtaining reasonable assurance about whether CEFA's financial statements are free from material misstatement, we performed tests of its compliance with certain provisions of laws, regulations, contracts, and grant agreements, noncompliance with which could have a direct and material effect on the determination of financial statement amounts. However, providing an opinion on compliance with those provisions was not an objective of our audit, and accordingly, we do not express such an opinion. The results of our tests disclosed no instances of noncompliance or other matters that are required to be reported under *Government Auditing Standards*.

Purpose of this Report

The purpose of this report is solely to describe the scope of our testing of internal control and compliance and the results of that testing, and not to provide an opinion on the effectiveness of the entity's internal control or on compliance. This report is an integral part of an audit performed in accordance with *Government Auditing Standards* in considering the entity's internal control and compliance. Accordingly, this communication is not suitable for any other purpose.
