CALIFORNIA EDUCATIONAL FACILITIES AUTHORITY BOND FINANCING PROGRAM

EXECUTIVE SUMMARY

Applicant: Santa Clara University Amount Requested: \$35,000,000

Santa Clara, CA

Date Requested: December 6, 2001

Santa Clara County Requested Loan Term: 32 years

Project Site: Santa Clara Resolution Number: 194

Facility Type: Private University

Accreditation: Western Association of Schools and Colleges

Uses of Bond Proceeds: Bond proceeds will be used primarily to construct a new residence hall, and to purchase a hotel to provide additional student housing and parking. Remaining proceeds will allow for additional campus improvements.

Type of Issue: Negotiated public offering, fixed and variable rates

Credit Enhancement: Anticipated Bond Insurance through Ambac or MBIA

Expected Credit Rating: Aaa/VMIG1 (Moody's), AAA (Fitch), based upon Municipal

Bond Insurance

A1 underlying rating (Moody's)

Senior Underwriter: Banc of America Securities

Bond Counsel: Orrick, Herrington & Sutcliffe LLP

Financial Overview: Santa Clara University continues to post good operating results. With the inclusion of this proposed additional debt, the University maintains satisfactory leverage levels. The extended outlook for the University remains stable.

Legal Review: No information was disclosed to question the financial viability or legal integrity of the Applicant.

Staff Recommendation: Staff recommends the Authority approve a Resolution in an amount not to exceed \$35,000,000 for Santa Clara University, subject to the bonds having at least an A rating by a nationally recognized rating agency and meeting the standard bond issuance provisions for "A" rated debt.

STAFF SUMMARY AND RECOMMENDATION BOND FINANCING PROGRAM

December 6, 2001 Resolution Number: 194

SANTA CLARA UNIVERSITY (the "University")

I. PURPOSE OF FINANCING: In order to attract and retain students, the University plans to finance new construction and renovation projects primarily to provide affordable student housing and parking as well as various improvements to the campus. This proposed financing is the fifth in a series of financings with the Authority beginning in 1993.

Specific details for the current projects are as follows:

• Construct new residence hall\$16,250,000

A new residence hall will be built on the main campus land. It will be a suite-style complex housing approximately 200 students. Underground parking and additional academic space may also be included in the final design of this project.

The second phase of renovations to the Leavey Activity Center will be funded with this proposed financing. The project involves demolition of the east end upper bleachers and approximately 13,000 square feet of existing space. A four-story interior reconstruction includes new upper level bleachers, concession stands, weight room and academic center for athletes. The project also provides for conference and video rooms, a working press center, ticket office and a new east entrance facing El Camino Real.

The University intends to purchase the Pacific Inn, a hotel that is located on approximately ½ acre of land adjacent to the college. It has 58 double rooms and includes underground parking for approximately 47 vehicles and ground level parking for 20 vehicles. The property will provide residences for approximately 116 students.

Renovate existing facility...... 750,000

The Kids on Campus daycare facility must be moved in order to make land available on the main campus for the new residence hall referenced in the aforementioned second paragraph. The University intends to renovate an existing leased building on campus to house the daycare facility.

| Ħ, | Financing costs | ••••••••••••••••••••••••••••••••••••••• | 1,000,000 |

⁽a) Recalculates 2001 audited results to include the impact of this proposed financing.

Santa Clara University continues to post good operating results.

The University has generated consistent operating results, although expenses are growing faster than revenues over the last three years. Tuition and fees are the university's main source of revenue representing 78% of total revenues in fiscal 2001 and increasing an average of over 6% per year.

In 1999, proceeds from the CEFA revenue bonds were used to defease a portion of Series 1996 bonds and to finance various capital projects. Consequently, a one-time accounting loss of \$3.5 million was incurred. However, subsequent debt service payments have been reduced resulting in an economic gain of approximately \$1.2 million to the University.

In 2001, net income declined significantly as compared to the prior two years primarily due to decreased investment returns resulting from the downtown in the stockmarket. The University maintains a strong net asset base with over \$300 million in unrestricted net assets over our review period. In addition, its consistent expendable net assets to operations ratio of over 3 indicates that these sources could sustain the University operations for more than 3 years.

The balance sheet reflects significant increases in contributions receivable for future plant facilities. Plant facilities also show increases as major construction projects were completed primarily funded from bond issues in 1996 and 1999.

With the inclusion of this proposed additional debt, the University maintains satisfactory leverage levels.

This proposed financing is the fifth in a series of financings with the Authority since 1993. The University has borrowed approximately \$192 million while maintaining very strong debt service coverage ratios averaging over 4x during our review period. The debt service coverage ratio remains satisfactory with the inclusion of this proposed new debt at nearly 2x.

The extended outlook for the University remains stable.

In August 2001, Moody's Investors Service affirmed the University's long-standing rating at A1. This rating is based on its established track record of strong financial operations and stable market position, well-established regional student demand in a growing market, strong operating margins and debt service coverage ratio, and above-average financial reserves and improved fundraising. In addition, the University's management projects that the proposed new student housing will generate significant additional auxiliary revenues amounting to approximately \$2 million annually.

III. STUDENTS, COLLEGE COSTS AND FACULTY STATISTICS:

Application Pool

The following table illustrates application, admissions and new enrollments for the University's undergraduate, law and other graduate programs for the fall term of the current and last four academic years.

Tuition and Fees

A summary of University tuition and fee charges and room and board charges for the academic years shown is set forth in the table below. In the academic years beginning in 1999 and 2001 the University instituted a higher undegraduate tuition rate for new incoming students. Undergraduate and graduate students attend classes on a quarter system basis, and the tuition and fee amounts assume attendance during the quarters on a full-time basis. Law students attend courses on a semester basis, and the tuition and fee amounts assume attendance during two semesters on the basis indicated.

IV. BACKGROUND:

General:

The University is a non-profit, privately endowed, co-educational university offering degrees in more than 30 fields of study. Enrollment for the fall term of 2001-02 academic year was 7,368 (6,505 FTE) students of which approximately 58% were undergraduate students. More than 6,000 applicants a year compete for 1,025 openings in the freshman class. Undergraduate and graduate instruction is provided by the College of Arts and Sciences, the School of Engineering and the Thomas and Dorothy Leavey School of Business and Administration. The School of Law and the Division of Counseling Psychology and Education offer programs at the graduate level only.

Located in the "Silicon Valley," a world center for high technology industries, the University is 46 miles south of San Francisco and one mile west of San Jose. Its 104-acre campus has more than 50 major buildings. These include 13 residence halls, four apartment complexes, the Michael Orradre Library, the Edwin A. Heafey Law Library, the Center for Performing Arts, the Thomas E. Leavey Activities Center, the Robert F. Benson Memorial Center, the de Saisset Museum, the Pat Malley Fitness and Recreation Center, and other numerous classroom and administration buildings. In the heart of the tree-lined campus stands the historic Mission Santa Clara de Asis, established in 1777 by Franciscan missionaries as the eighth in a series of 21 California missions.

The University was founded at the site of the Mission in 1851 by the Society of Jesus, or Jesuits, as the order is commonly known, and is the oldest institution of higher education in California. Although the University remains affiliated with the Catholic Church and the Society of Jesus, it is governed by an independent Board of Trustees and welcomes persons of all religious persuasions as members of its student body, faculty and administration.

Religious Certification:

Santa Clara University is an independent institution of higher education affiliated with the Catholic Church. It has provided both a certification of compliance with the provisions of the CEFA Act relating to religion, and a more comprehensive certification detailing compliance with the specific standards as required by the Authority.

Staff Counsel and Bond Counsel have reviewed the certifications and have determined that the University responded satisfactorily to all questions.

Administration:

The University is governed by a Board of Trustees composed of 38 members. The Bylaws require that the Board include the President of the University, two alumni, the Rector of the Jesuit Community of Santa Clara University (the "Rector") and 34 others, of whom at least 11 must be members of the Society of Jesus. With the exception of the President and the Rector, who serve by virtue of their offices, all members of the Board are elected for three-year terms. Approximately one-third of the members are elected annually. Currently, there are three vacancies on the Board.

The Board of Trustees annually elects a Chairman, Vice Chairman, a Secretary, and a Treasurer for terms of one year. In addition to an Executive Committee which acts for the Board between meetings, the Board has six standing committees, including a Committee on Financial Planning and Budget. The full Board meets three times each year.

Accreditation:

The University is fully accredited by the Accrediting Commission for Senior Colleges and Universities of the Western Association of Schools and Colleges ("WASC"), the primary accrediting body for institutions of higher education in the Western United States. The last WASC accreditation was in 2000 resulting in a reaffirmation of accreditation. The next accreditation is scheduled in November 2004. It also has professional accreditation from the Accreditation Board for Engineering and Technology, the American Assembly of Collegiate Schools of Business (Undergraduate and Graduate programs), the American Association of Museums, and the American Chemical Society. The University has been approved by the California State Commission on Teacher Credentialing and has been admitted to membership in the National Association of Schools of Music and the National Associate of School of Theatre. The School of Law is accredited by the American Bar Association and the State Bar of California, and is a member of the Association of American Law Schools.

Academic Programs:

The University is organized into five major academic divisions:

<u>College of Arts and Sciences</u> is the largest academic unit on campus, with faculty that teach all of the courses in the University's undergraduate core curriculum. Its 20 departments and special programs offer two undergraduate degrees in 32 majors.

<u>Thomas and Dorothy Leavey School of Business and Administration</u> offers both undergraduate and graduate programs.

The <u>School of Engineering</u> offers both Bachelor of Science and Masters of Science programs in Civil Engineering, Computer Engineering, and Electrical Engineering, General Engineering, and Mechanical Engineering. It also offers Master of Science programs in Applied Mathematics, Engineering Management and Software Engineering. Ph.D. programs are offered in Electrical Engineering, Computer Engineering and Mechanical Engineering.

The <u>School of Law</u> offers a full range of courses dealing with federal, state and international law leading to the Juris Doctor Degree. Its day and evening divisions also provide students with opportunities to participate in overseas summer programs, internships and institutes, such as the Institutes and the Institute of International and Comparative Law.

The <u>Division of Counseling Psychology and Education</u> includes programs leading to the Master of Arts in Counseling, Counseling Psychology, Marriage, Family, and Child Counseling, Education, Educational Administration, and Special Education.

Competition:

The University's competing institutions are:

University of California, Berkeley University of California, Los Angeles Loyola Marymount University in Los Angeles University of San Francisco University of California, Davis University of Southern California St. Mary's College of California University of San Diego

VI. LEGAL REVIEW:

Staff has reviewed the Applicant's responses to the questions contained in the Legal Status portion of the application. No information was disclosed to question the financial viability or legal integrity of this applicant.

VII. STAFF RECOMMENDATION:

Staff recommends the Authority approve a Resolution in an amount not to exceed \$35,000,000 for Santa Clara University, subject to the bonds having at least an A rating by a nationally recognized rating agency and meeting the standard bond issuance provisions for "A" rated debt.
