Senator Wesley Chesbro Chairperson, Joint Legislative Budget Committee State Capitol, Room 5035 Sacramento, CA 95814

Subject: Report for Results of the Cedillo-Alarcón Grant Program AB 2875

Pursuant to Government Code Section 15438.6 "Upon disbursement of all grant funds, the Authority shall report to the Joint Legislative Budget Committee on the recipients of grants, the total amount of each grant, and the purpose for which each grant was awarded".

BACKGROUND:

Legislation sponsored in 2000, by then Assembly Member Gilbert Cedillo and coauthored by Senator Richard Alarcón, known as AB 2875, authorized the creation of a financial assistance grant program to eligible community clinics for one-time capital outlays. In response to this legislation, the California Health Facilities Financing Authority (The Authority) implemented the Cedillo-Alarcón Community Clinic Grant Program of 2000.

The legislation required that upon disbursement of all grant funds, the Authority shall report to the Joint Legislature Budget Committee on the recipients of grants, the total amount of each grant and the purpose for which each grant was awarded, as of April 2005 all awarded grant funds have been disbursed.

The legislation authorized a one-time appropriation of \$50 million in grants, plus interest earned on these funds for capital outlays to allow clinics to expand and meet the growing need for health care among uninsured. The legislation was created as a result of:

- Many primary care clinics were at capacity and in order to increase access to their services and allow them to expand to cover the growing need for health care for vulnerable populations in California.
- Primary care clinics were the health care safety net for the most vulnerable populations in California: uninsured, underinsured, indigent, and those in shortage designation areas. Primary care clinics provide health care regardless of the ability to pay for services.
- Approximately 7.4 million Californians lack health insurance, a number that increases \$50,000 per month.
- Primary care clinics have been historically and woefully underfunded.
- Primary care clinics are the most cost-effective means of serving California's vulnerable populations
- The failure to adequately fund primary care clinics has resulted in significant costs to the State in the form of unnecessary emergency room visits. Also the lack of preventive care results in significant costs when patients become severely ill.

The bill enacted the Cedillo-Alarcón Community Care Investment Act of 2000, authorizing the Authority to administer the grant program. The legislation did appropriate funding for administrative costs incurred by the Authority, however the Authority elected to waive charging administrative costs of the program. The Authority in consultation with representatives of primary care clinics and other appropriate parties developed a selection criteria and process for awarding grants under the program. The selection criteria resulted in a scoring system, using the following criteria: 1) Population Served; 2) Proposed Services; 3) Project Readiness/Feasibility; and 4) Financial Capacity. The Authority's staff scored the grant applications, with a maximum total score of 165 points possible. The applications were than ranked in the order of points scored. The original legislation also required that the Authority take into account the location of the applicant and include "broad geographic distribution of grant funds", so this was taken into account in addition to the total points scored. (see page 5)

Using the above criteria, the Authority administered the "First Round" of Applications, which were received on May 18, 2001 and the results are shown below:

Number of Applications Received:	267
Total Number of Projects Approved for Funding:	226
Total Number of Projects Denied Funding:	41
Total Dollars Approved for Funding:	\$42,251,264
Total Dollars Disbursed for Funding:	\$40,941,167
Total Dollars Denied for Funding:	\$8,500,476

Due to the undersubscribed grant applications, (total grant application amounts were less than total grant funds available) each applicant received 100% of their eligible funding request.

Since only \$42,251,264 was approved in the First Round, the Authority administered a "Second Round" of grant Applications, which were received on December 14, 2001 with the following results:

Number of Applications Received:	168
Total Number of Projects Approved for Funding:	105
Total Number of Projects Denied Funding:	63
Total Dollars Approved for Funding:	\$10,110,938
Total Dollars Disbursed for Funding:	\$9,910,984
Total Dollars Denied for Funding:	\$10,452,826

During this Second Round, the total grant application amounts exceeded the total remaining funds available. The Authority determined that it would be most equitable to fund more applications at a reduced funding rate, thus applications were funded at either 100%, 60%, or 40% of the eligible costs, with the highest ranking scores receiving the highest funding rate. In addition, some applicants in the lower score ranking did not receive funding in this round (see Number of Projects Denied for Funding, above).

The total amount disbursed for both the first and second round was \$50,852,151. The additional \$852,151 was provided by interest from the Surplus Investment Fund.

The Authority has requested one applicant return \$100,000 in grant funds, as the applicant did not use the grant funds in accordance with the grant regulations. The Attorney General has reached a negotiated agreement for repayment of \$25,000.

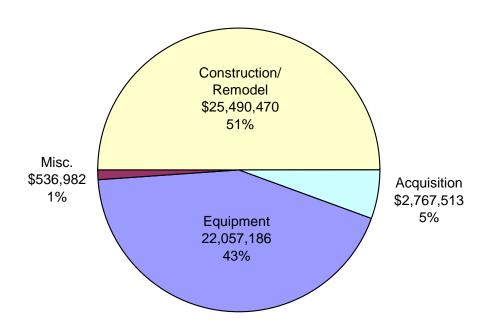

RECIPIENT OF GRANTS/AMOUNT OF EACH GRANT/PURPOSE OF GRANT

See Exhibit A

TYPES OF GRANT PROJECTS FUNDED:

The breakdown of the projects types funded by is as follows:

Construction of new facilities and	
Renovation/remodel of existing facilities	\$25,490,470
Equipment and furnishing purchases	22,057,186
Acquisition of a new/existing facilities	2,767,513
Other (or Miscellaneous)	536,982
	\$50,852,151

GRANT AWARDS BY GEOGRAPHIC LOCATION:

The Authority funded grants based on four geographic locations described as follows:

Central Coast: the counties of Alameda, Contra Costa, Marin, Mendocino, Monterey, Napa, San Benito, San Francisco, San Mateo, Santa Clara, Santa Cruz, Solano, and Sonoma.

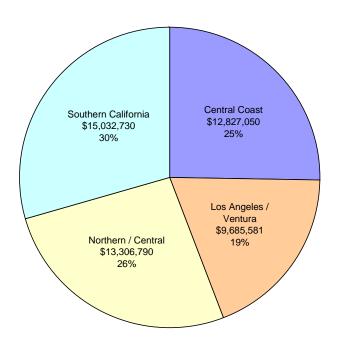

Los Angeles/Ventura: the counties of Los Angeles and Ventura.

Northern/Central: the counties of Alpine, Amador, Butte, Calaveras, Colusa, Del Norte, El Dorado, Fresno, Glenn, Humboldt, Inyo, Kings, Lake, Lassen, Madera, Mariposa, Merced, Modoc, Mono, Nevada, Placer, Plumas, Sacramento, San Joaquin, Shasta, Sierra, Siskiyou, Stanislaus, Sutter, Tehama, Trinity, Tulare, Tuolumne, Yolo, and Yuba.

Southern California: the counties of Imperial, Kern, Orange, Riverside, San Bernardino, San Diego, San Luis Obispo, and Santa Barbara.

Grants were funded in each of the above geographic locations as follows:

Central Coast	\$12,827,050
Los Angeles/Ventura	\$9,685,581
Northern/Central	\$13,306,790
Southern California	\$15,032,730
	\$50,852,151

ADDITIONAL PATIENTS SERVED AS A RESULT OF GRANT FUNDS:

The Authority received estimates from each Grant applicant of the number of additional patients served annually as a direct result of the receipt of grant funds. The total estimated additional patients served annually were 577,000.

SUCCESS OF THE GRANT PROGRAM:

The grant program was an overall success with many clinics providing additional services to new patients or improved services to existing patients. The Authority received a significant amount of positive feedback from many clinics on their appreciation and gratitude of the receipt of grant funds along with their satisfaction with the manner in which the Authority administered the program.

Sincerely,

Sandra Simpson-Fontaine Executive Director
