II. PROPOSED COVENANTS, SECURITY PROVISIONS AND DISCLOSURES:

Obligated Group. CSMC is a California nonprofit public benefit corporation and is the only member of the Obligated Group. CSMC is the borrower under the Loan Agreement(s).

This Executive Summary and its recommendations are based on the covenants and disclosures listed below. Additional or more stringent covenants or disclosures may be added following consultation with Authority staff but without further notification to the Authority's Board. These covenants cannot be diluted or removed without subsequent review. If there have been modifications to the proposed covenants following the preparation of this Executive Summary, staff will report it at the meeting.

After reviewing CSMC's current financial profile, prior bond transactions, and considering what the market will support, CSMC, Fieldman, and the underwriter have concluded the covenants listed below should be applicable to this transaction. CSMC, Fieldman, and the underwriter note these covenants are consistent with covenants that have applied to the CSMC's prior bond transactions and that the CSMC's current financial profile does not suggest that additional covenants should be required by CHFFA.

The following covenants are applicable for this transaction:

Unconditional Promise to Pay. *CSMC agrees to pay to the Bond Trustee all amounts required for principal, interest or redemption premium, if applicable, and other payments and expenses designated in the Loan Agreement. The Obligated Group guarantees all such payments under the Obligation issued under the Master Indenture. All Revenues (which will include payments by CSMC under the Loan Agreement and payments by the Obligated Group under the Obligation) and any other amounts held in a designated fund or account under the Bond Indenture are pledged to secure the full payment of the Series 2015 Bonds. Currently, CSMC is the only Member of the Obligated Group.*

Pledge of Gross Revenues. *Under the Supplemental Master Indenture for the Series 2015 Bonds, each Member of the Obligated Group pledges to deposit all of its Gross Revenues into a Gross Revenue Fund over which, under certain circumstances related to payment defaults on any Obligation, the Master Trustee can exercise control for the benefit of each Obligation holder.*

Limitation on Liens. *Each Member agrees that it will not create, assume or suffer to exist any Lien upon the Property of the Obligated Group except for Permitted Encumbrances.*

Limited Permitted Encumbrances. *Each Member is subject to a restrictive set of allowable Liens it may incur pursuant to the Master Indenture, such allowable Liens being "Permitted Encumbrances."*

Debt Service Coverage Requirement. *The Master Indenture requires an Annual Required Debt Service Coverage Ratio of more than 1.10:1.00. A debt service coverage ratio measures the ability to make interest and principal payments as they become due. If the Annual Required Debt Service Coverage Ratio falls below 1:10:1.00, the Obligated Group Representative promises to employ an Independent Consultant. An immediate event of default occurs if the Annual Required Debt Service Coverage Ratio falls below 1.00:1.00.*

Limitations on Mergers, Sales or Conveyances. *Each Member agrees that it will not merge or consolidate with any other entity or sell or convey all or substantially all of its assets to any entity that is not a Member unless authorized by various limiting measures set out in the Master Indenture.*

Limitations on Exit of Existing Members of the Obligated Group or Entrance of New Members. *The Master Indenture sets forth restrictions that must be met, including financial tests, for an existing member to exit the Obligated Group or a new member to enter the Obligated Group.*

Disposition of Cash and Property Limitations. *Each Member agrees that it will not dispose any Property if such disposition will cause the Annual Required Debt Service Coverage Ratio for the Members to be less than 1.10:1.0.*

No Reserve Account. *There will not be a debt service reserve account pledged to the Series 2015 Bonds.*

Staff and Fieldman have reviewed the entirety of this financing package and find it to be acceptable.

Financial Discussion – Statement of Activities (Income Statement)

CSMC's income statement appears to exhibit fluctuating operating income while revenue continued to grow.

CSMC's income from operations displayed an increase from FY 2012 to FY 2014 of approximately 153%, increasing from \$112 million to \$284 million. While operating income increased during the review period, FY 2014 did show a decrease of 19% compared to FY 2013. According to CSMC management, operating income increased from FY 2012 to FY 2013 as revenues growth outpaced expense growth based on heightened cost control efforts. From FY 2013 to FY 2014, declining volume resulted in revenue growth of 1.6% while expenses increased 4.5%. According to CSMC management, CSMC continues to monitor expenses as part of its organizational goals to ensure it is appropriately resourcing operations and has started several task forces to ensure they obtain those goals. Due to these efforts, volumes have recovered significantly.

Additionally, total revenue increased by approximately 12% from FY 2012 to FY 2013 from \$2.5 billion to \$2.8 billion, respectively and total revenues grew to \$2.9 billion in FY 2014, an increase of 2%. According to CSMC management, the growth in FY 2013 was driven by strong outpatient revenue growth. The slowing of growth in FY 2014 was driven by a combination of decreased volume and the absence of the hospital provider fee which was not approved until FY 2015.

According to CSMC management, CSMC continues to monitor and assess the many facets of the Affordable Care Act. While CSMC has seen significant expansion of Medi-Cal and commercial exchange patients, it expects to be prepared to continue to meet the growing demand and continue to provide high quality care.

Particular Facts to Note:

- CSMC incurred an increase in unrestricted net assets from \$34.2 million in FY 2012 to \$503.7 million in FY 2013. However, FY 2014 decreased to \$424.8 million. According to CSMC management, the increase in unrestricted net assets from FY 2012 to FY 2014 is driven substantially by income from operations increasing from \$95 million in FY 2012 to \$439 million in FY 2014. To a lesser extent, investment income increased by \$171 million during that time from negative \$16 million in FY 2012 to \$155 million in FY 2014 as well as other changes related to pension liabilities and net assets released from restrictions increasing \$75 million.
- CSMC displayed an increase in investment income associated with future operating and capital needs over the review period, with FY 2014 showed a difference of \$172 million compared to FY 2012. According to CSMC management, their investment income fluctuates broadly depending on general market conditions.

Financial Discussion – Statement of Financial Position (Balance Sheet)

CSMC's balance sheet appears solid with increasing net assets and a strong 2014 proforma operating debt service coverage ratio at 6.16x.

CSMC's balance sheet appears to continue growing with total net assets increasing from approximately \$2 billion in FY 2012 to \$3 billion in FY 2014, an increase of 48.3%. According to CSMC management, net assets increases are primarily related to income from operations and investment earnings. CSMC's debt service coverage ratio remained strong during the review period, with 3.09x in FY 2012, 5.96x in FY 2013, and 5.06x in FY 2014. With the expected savings from the proposed refunding, the proforma debt service coverage ratio appears to increase to 6.16x.

Particular Facts to Note:

- CSMC's prepaid expenses and other assets decreased approximately \$137.1 million in FY 2012 to \$96.1 million in FY 2014. According to CSMC management, these changes are purely related to the timing of payments from year to year.
- CSMC's short-term investments increased from \$448.4 million in FY 2014 to \$780.4 million in FY 2013. CSMC management attributes the increase in short term investments to operational results.
- CSMC's debt-to-unrestricted net assets ratio reduced each year of the review period from 0.74 in FY 2012 to 0.44 in FY 2014. This reduction improved the borrower's financial position as long-term debt decreased from approximately \$1.1 billion in FY 2012 to approximately \$1 billion in FY 2014.
