I. Use of Note Proceeds / Project Information

Proceeds from the Notes will be used, together with other available funds of the Borrower, to acquire a 2.1 acre site in Los Angeles, California (the School Site) on which will be constructed a charter school facility. The purchase price for the property is \$20,200,000.

The completed project will include construction of a public charter school facility on the property. The site is approved for the intended use, and no additional entitlements are required to develop the site for its intended purposes. The total cost of the project is estimated at approximately \$53,200,000 including the \$27,000,000 Augmentation grant awarded to the Borrower by the Los Angeles Unified School District and other miscellaneous costs.

Total Estimated Project Costs				\$78,200,000

In 2011, the State Allocation Board awarded Ocean Charter School (the Borrower) a preliminary apportionment of approximately \$20 million through the Proposition 1D funding round of the Charter School Facilities Program (Program) to construct a permanent school facility. To date, the Borrower has received \$7,540,000 of the Grant funds for design and site acquisition costs. The Borrower must complete the design of the facility, and obtain the design approvals described below prior to May 3, 2017 in order to receive the balance of their apportionment through the Program. It is anticipated that the final approved project design, including site acquisition costs, will be eligible for a total Grant of approximately \$25,000,000. The total amount of Grant funds will not be known until the Borrower submits all estimated project expenses based on the approved design and SAB approves, by Resolution, the final Grant apportionment. In addition, the State School Building Finance Committee must take action to authorize the issuance of State general obligation bonds in an amount sufficient to fund the apportionment represented by the Grant and funds in the specific amount requested must be approved by the SAB. The Borrower reasonably expects that this process will be completed in the fall of 2017. Additionally, on April 12, 2016, the Board of the Los Angeles Unified School District unanimously approved an Augmentation Grant of \$27,000,000 for Ocean Charter School's project. The Augmentation Grant will be applied by the Borrower, along with the Grant funds, to fund costs of construction of the facility.

II. Ocean Charter School

Ocean Charter School ("OCS") is a nonprofit public benefit corporation that has been determined to be a 501(c)(3) organization and is a California public charter school. The Borrower received its 501(c)(3) status on May 17, 2004 and was approved to operate as a public charter school by the Los Angeles Unified

School District (LAUSD) in 2003, with charter renewals in 2008 and 2013. LAUSD observed and reported in its latest oversight visit dated October 1, 2015 that the Borrower is accomplished or proficient in all examined areas. Of note, the Governing Board was rated as having “fully implemented the organizational structure set forth in the approved charter”.

Since its founding, the Borrower has provided an academically rigorous program integrated with rich practices that raise the educational achievement and life possibilities for students. Evidence of the Borrower’s successful academic program in the STAR (Standardized Testing and Reporting) include a 2013 school wide Growth API (Academic Performance Index) average exceeding 800, and a weighted 3-year average API of 837. The CAASPP (California Assessment of Student Performance and Progress) replaced the STAR, and per the most recent CAASPP data, the school outperformed LAUSD for grades 4th through 8th in both English Language Arts and Math. The Borrower serves 532 students in grades TK-8 in West Los Angeles and is known as an arts integrated and high academic achieving charter school in Los Angeles and the State of California.

III. Financial Structure

The Notes are expected to have a term of approximately 30 months. Interest on the Notes will be prefunded with funds of the Borrower upon Note closing and paid quarterly commencing on October 1, 2016. Principal, interest and any premium will be paid upon maturity or on any call date. The first call date is July 1, 2017. Notes are callable in whole or in part on any day thereafter.

Because the interest will be prefunded, payments on the Notes will not be subject to the Intercept.

IV. Security and Source of Payment

The Notes are secured by the gross revenues with respect to any school operated or to be operated by the Borrower at the Facility legally available for payment of the obligations of the Borrower under the Loan Agreement. The Borrower expects to pay amounts due under the Loan Agreement with proceeds of the CSFP grant received by the State.

Investors will also receive a subordinate lien deed of the trust on the School Site; such deed of trust benefitting the Investors will be subordinate to the deed of trust recorded for the benefit of the State in connection with the CSFP program
