### DESIGNATION BY POOLED MONEY INVESTMENT BOARD OF TREASURY POOLED MONEY INVESTMENTS AND DEPOSITS

1883

In accordance with sections 16480 through 16480.8 of the Government Code (GC), the Pooled Money Investment Board, at its meeting on January 18, 2023, has determined and designated the amount of money available for deposit and investment as of January 6, 2023, under said sections. In accordance with sections 16480.1 and 16480.2 of the GC, it is the intent that the money available for deposit or investment be deposited in bank accounts and savings and loan associations or invested in securities in such a manner so as to realize the maximum return consistent with safe and prudent treasury management, and the Board does hereby designate the amount of money available for deposit in bank accounts, savings and loan associations, and for investment in securities and the type of such deposits and investments as follows:

1. In accordance with Treasurer's Office policy, for deposit in demand bank accounts as:

#### a. Compensating Balance for Services

\$ 188,000,000

The active noninterest-bearing bank accounts designation constitutes a calendar month average balance. For purposes of computing the compensating balances, the Treasurer shall exclude from the daily balances any amounts contained therein as a result of nondelivery of securities purchased for "cash" for the Pooled Money Investment Account and shall adjust for any deposits not credited by the bank as of the date of deposit. The balances in such accounts may fall below the above amount provided that the balances computed by dividing the sum of daily balances of that calendar month by the number of days in the calendar month reasonably approximates that amount. The balances may exceed this amount during heavy collection periods or in anticipation of large impending warrant presentations to the Treasury, but the balances are to be maintained in such a manner as to realize the maximum return consistent with safe and prudent treasury management.

b. Interest Bearing Accounts for Cash Flow Variability:

\$ 1,000,000,000

JP Morgan Chase Bank Bank of the West \$ 500,000,000 \$ 500.000.000

Time Deposits in

The interest bearing bank account designation represents targeted balances to be averaged over one month's period to smooth cash flow variability. The balances may fluctuate above and below these amounts as needed to manage cash flow variances and to meet daily liquidity needs. Interest earnings for these accounts will be calculated according to the terms of the agreement between the Treasurer's Office and the account's depository bank, paid monthly and recorded as a deposit into the state's main demand deposit account, and allocated quarterly by the State Controller's Office as directed by GC 16475 and GC 16480.6.

2. In accordance with law, for investment in securities authorized by section 16430, GC, or in term interest-bearing deposits in banks and savings and loan associations as follows:

				Various Financial
