**AGENDA ITEM 8  
INFORMATION ITEM**

**SCHOLARSHARE INVESTMENT BOARD**

*Review and Analysis of Investment Performance for ScholarShare 529 for  
Third Quarter 2019.*

---

***Background***

The ScholarShare Investment Board (SIB or Board) and its investment consultant, Meketa Investment Group, Inc. (Meketa), monitor all portfolios in ScholarShare 529 (Plan) in accordance with the ScholarShare Monitoring Procedures and Criteria adopted by the Board.

In this item, SIB will review and discuss “Investment Performance Report” (Exhibit A) for the Plan for third quarter 2019, provided by TIAA-CREF Tuition Financing, Inc., and the “Investment Performance Status Report” (Exhibit B) for third quarter 2019, provided by Meketa. Exhibit B provides comparisons for each underlying fund allocated to the portfolios used in the Plan to applicable benchmark criteria and labels the current status of funds as “positive,” “acceptable,” “caution,” or “watch.”

For the third quarter of 2019:

- Six underlying funds were in the “positive” status, and
- 10 underlying funds were in the “acceptable” status
- Three underlying fund was in the “caution” status (one fund currently on “watch” status).

As outlined in its memo (Exhibit C), Meketa has provided, for the Board’s consideration, options related to the TIAA-CREF Social Choice Equity Fund. No new funds qualify for “watch” status.

***Presenters***

Jeremy Thiessen, Senior Director, Institutional Investment Strategist,  
TIAA-CREF Tuition Financing, Inc.

Glenn Friedman, Director, Asset Allocation and Investments, TIAA-CREF Tuition Financing, Inc.  
Eric White, Principal, Meketa Investment Group, Inc.

# Quarterly Investment Report

3rd Quarter, 2019

BUILT TO PERFORM.

CREATED TO SERVE.

Please read these documents carefully before investing.

TIAA-CREF Tuition Financing, Inc., Program Manager. TIAA-CREF Individual & Institutional Services, LLC, member FINRA and SIPC, distributor and underwriter for the ScholarShare 529 College Savings Plan.

## Key Themes

- Volatility continued to be a central headline in risk markets during the third quarter. Politics, international trade relations, yield curve inversion, and the fear of slower growth all contributed to uneasiness and uncertainty, much like the first half of the year.

## Equities

- Eight of eleven U.S. equity sectors had positive returns. Utilities had the highest returns, registering 9.33% for the quarter, while Energy was the laggard, falling 6.30%. Non-U.S. developed and emerging markets both stumbled, trailing U.S. markets.

## Fixed Income

- In a move that many anticipated, the Federal Reserve Board lowered its benchmark fed funds rate by 0.25% in July, and then another 0.25% in September. The current target range is now 1.75%-2.00%. Fed Chair Powell also suggested that the Board was prepared to move aggressively if the economy showed additional signs of weakening. Falling yields benefited fixed income assets.

Past performance is not indicative of future results. You can not invest directly in an index. # Actively Managed Portfolios vs Composite Benchmarks Q3 and Since Inception Returns (%)

\* Returns are net of most recent weighted average Underlying Fund Fees, Program Management Fees and State Administrative Fees (5 bps).

- Total nonfarm payroll employment increased by 136,000 in September, following an upwardly revised 168,000 rise in August. Employment continued to trend up in health care and in professional and business services.
- Average hourly earnings of all employees on private nonfarm payrolls showed a 2.89% year-over-year increase from last September.
- The Conference Board's index of leading economic indicators (LEI) remained unchanged in August, following a 0.4% increase in July, and no change in June. The index points to a slow but still expanding economy.
- All age bands in the Actively Managed Portfolios had positive absolute returns in Q3 and underperformed their blended benchmarks after fees.
- Contributing to absolute returns was the TIAA-CREF Real Estate Securities Fund, which returned 7.97% and outperformed its benchmark by 24 basis points. Also contributing to absolute performance was the MetWest Total Return Bond Fund, which generated 2.26%.
- The largest absolute detractor was the DFA Emerging Markets Core Equity Portfolio, which returned -4.18%. The largest relative detractor was the T. Rowe Price Large Cap Growth Fund, which returned -1.11% and trailed its benchmark by 260 basis points.
- The highest performing investment option was the Social Choice Portfolio. This returned 1.98% and beat its benchmark by 82 basis points.

# Passively Managed Portfolios vs Composite Benchmarks Q3 and Since Inception Returns (%)

- While a fair amount of volatility persisted in the market, the S&P 500 Index gained 1.70% for the quarter, adding onto an already very positive year.
- Treasury yields ended the quarter lower after the Fed cut interest rates. The Bloomberg Barclays U.S. Aggregate Bond Index of intermediate-term investment grade U.S. bonds returned 2.27%.
- All age bands in the Passively Managed Portfolios posted positive absolute returns for the quarter and most outperformed their blended benchmarks after fees.
- Positive absolute returns were driven most by the TIAA-CREF Real Estate Securities Fund. Also contributing was the TIAA-CREF Bond Index Fund, which returned 2.31%.
- There were modestly positive relative returns for several equity and fixed income funds. The TIAA-CREF High Yield Fund returned 0.99% but trailed its benchmark by 68 basis points.
- Nearly all Multi-Fund and Single Fund Portfolios also saw positive absolute returns. The Index International Equity Portfolio was the one investment option with negative absolute returns, due to weakness in the overseas markets.

\* Asset Based Fees include most recent weighted average Underlying Fund Fees and Program Management Fees.

# Actively Managed Portfolios vs. Passively Managed Portfolios

\* Returns are net of most recent weighted average Underlying Fund Fees, Program Management Fees, and State Administrative Fees (5 bps).

\*\* Returns are net of most recent weighted average Underlying Fund Fees, Program Management Fees, and State Administrative Fees (5 bps) before 11/12/13.

- In Q3, most Passively Managed Portfolios outperformed the Actively Managed Portfolios.
- Certain underlying funds in the Active Portfolios underperformed their benchmark, which resulted in lower returns for some portfolios with allocations to those funds compared to their passive counterparts. For example, the T. Rowe Price Large Cap Growth Fund and PIMCO Income Fund both underperformed their respective benchmarks. However, other active underlying funds outperformed, which moderated some of Active's underperformance.
- Since Inception returns largely continue to favor the Actively Managed Portfolios, though the gap has narrowed more recently.

## TAKEAWAYS

---

- All of the Program's age-based portfolios posted positive absolute results for the quarter. All actively-managed portfolios underperformed their respective benchmarks for the period, across age groups. The majority of passively-managed portfolios outperformed their respective benchmarks over the quarter.
- International equity markets experienced losses in the third quarter. The Program's underlying international funds produced negative returns on an absolute basis during the quarter.
- US equities produced positive absolute results over the second quarter and mixed benchmark relative results. Large cap stocks outperformed small cap stocks. Large Cap Growth indices outperformed Large Cap Value indices, however the Program's T. Rowe Institutional Large Cap Growth fund once again underperformed the T. Rowe Institutional Large Cap Value fund, which was the top equity contributor for the period.
- International equities provided negative absolute results in developed and emerging markets. The DFA Large Cap International and TIAA-CREF Emerging Market Index funds generated negative returns and slightly outperformed their benchmarks.
- Fixed income results nearly outpaced equities over the recent quarter. The majority of the Program's actively-managed fixed income funds modestly underperformed their respective benchmarks for the quarter. The TIAA-CREF Bond Index fund generated the highest absolute return of the Program's fixed income funds.
- Real Estate was the largest positive contributor over the quarter. The TIAA-CREF Real Estate Securities Fund posted the strongest absolute return, 7.97%.

\*Investment through a funding agreement with TIAA-CREF Life Insurance Company. Not benchmarked to an index, rather, portfolio performance is monitored using a set of qualitative guidelines.

# REVIEW OF SCHOLARSHARE POLICY

## Performance Criteria for Placing a Fund on Watch

### Actively Managed Funds

Asset Class	Short-Term (rolling 12-month periods)	Medium-term (rolling 36-month periods)	Long-term (> 60 months)
Domestic Equity	Fund return < bench return -3.5% for 6 consecutive months	Fund return < bench return -1.75% for 6 consecutive months	VRR< 0.97 for 6 consecutive months
International Equity	Fund return < bench return -4.5% for 6 consecutive months	Fund return < bench return -2.0% for 6 consecutive months	VRR< 0.97 for 6 consecutive months
Fixed Income	Fund return < bench return -1.0% for 6 consecutive months	Fund return < bench return -0.5% for 6 consecutive months	VRR< 0.98 for 6 consecutive months
High Yield	Fund return < bench return -6.5% for 6 consecutive months	Fund return < bench return -3.25% for 6 consecutive months	VRR< 0.96 for 6 consecutive months

### Passively Managed Funds

Asset Class	Short-Term (rolling 12-month periods)	Medium-term (rolling 36-month periods)	Long-term (rolling 60-month periods)
Domestic Equity	Tracking Error > 0.30% for 6 consecutive months	Tracking Error> 0.25% for 6 consecutive months	Fd annlzd return < bench annlzd return -0.30% for 6 consecutive months
International Equity	Tracking Error > 0.75% for 6 consecutive months	Tracking Error> 0.70% for 6 consecutive months	Fd annlzd return < bench annlzd return -0.30% for 6 consecutive months
Fixed Income	Tracking Error > 0.40% for 6 consecutive months	Tracking Error> 0.55% for 6 consecutive months	Fd annlzd return < bench annlzd return -0.35% for 6 consecutive months

[1] Return discounts from a benchmark return based on 2/3rds of the typical tracking error estimates of the specified type of fund manager.

[2] Annualized return is the average annual return of either the manager or its benchmark.

[3] VRR – Value Relative Ratio – is calculated as: Manager Cumulative Return / Benchmark Cumulative Return.

[4] Tracking error is a measure of the volatility of the average annual difference between the manager's return and the benchmark's return.

# REVIEW OF SCHOLARSHARE POLICY

## Performance Criteria for Placing a Fund on Watch (Continued)

### T-C Life Funding Agreements (based on non-investment performance criteria)

Fund Name	Financial Strength	Mortgage Portfolio	Bond Portfolio	Account Diversification
T-C Life Funding Agreements	Moody's = Aaa Standard & Poor's = AAA A.M. Best = A+++ Fitch = AAA	100% in Good Standing	At least 90% Investment Grade	Portfolio is diversified across asset classes and types

The T-C Life Funding Agreements are measured against a set of non-investment performance criteria (see above) in a published TIAA-CREF report every quarter.

# REVIEW OF SCHOLARSHARE POLICY

## Investment Status Schedule

Performance Category	Actively Managed Portfolios	Passively Managed Portfolios
Positive	<ul style="list-style-type: none"> <li>Performance exceeds the benchmark.</li> </ul>	<ul style="list-style-type: none"> <li>Performance exceeds the benchmark (first 1-12 month period), or</li> <li>Tracking error is within the allowable range<sup>1</sup> (short, medium, and long time periods).</li> </ul>
Acceptable	<ul style="list-style-type: none"> <li>Performance meets or is under the benchmark and is within the allowable range.</li> </ul>	<ul style="list-style-type: none"> <li>Performance does not exceed the benchmark but is within the allowable range (first 1-12 month period only).</li> </ul>
Caution	<ul style="list-style-type: none"> <li>Performance is below allowable range but either:                             <ol style="list-style-type: none"> <li>for less than six consecutive months, or</li> <li>the Board has not taken (or decided not to take) a formal action to place the asset class or individual fund portfolio on Watch even though performance has been below allowable range for six months or longer.</li> </ol> </li> </ul>	<ul style="list-style-type: none"> <li>Tracking error falls outside of the allowable range but either                             <ol style="list-style-type: none"> <li>for less than six consecutive months, or</li> <li>the Board has not voted to place the asset class or stand alone fund on Watch</li> </ol> </li> </ul>
Watch <sup>2</sup>	<ul style="list-style-type: none"> <li>Performance is below allowable range for more than six consecutive months and the Board has formally voted to place the asset class or individual fund on Watch.</li> </ul>	<ul style="list-style-type: none"> <li>Tracking error falls outside of the allowable range for more than six consecutive months and the Board has formally voted to place the asset class or individual fund portfolio on Watch.</li> </ul>

<sup>1</sup> Ranges are shown in the Investment Performance Criteria Schedules.

<sup>2</sup> The amount of time generally required before an investment is put on watch.

APPENDIX

---

# GLOSSARY

---

**Annualized Return** – The average annual return of either the manager or its benchmark.

**Excess Performance** – Manager returns in excess of the benchmark returns.

**Standard Deviation** – A measure of dispersion of a set of data from its mean.

**Excess Standard Deviation** – A measure of the volatility of the average annual difference between the manager's return and the benchmark's return, same as tracking error.

**VRR – Value Relative Ratio** – Is calculated as:  $\text{Manager Cumulative Return} / \text{Benchmark Cumulative Return}$ .

## MEMORANDUM

---

**To:** ScholarShare Investment Board (SIB)  
**From:** Eric White, Kay Ceserani, Meketa Investment Group  
**Date:** December 12, 2019  
**Re:** Review of Underlying Funds Qualifying for “Watch” Status

### SUMMARY

Meketa Investment Group has conducted a review of the underlying funds in the ScholarShare 529 Plan. The review included a quantitative analysis of the underlying funds based on specific performance criteria (as per the *Monitoring Procedures and Criteria*) as well as a qualitative analysis, including a review of organizational concerns, stability of personnel, changes in investment objectives, etc. This memo summarizes the period from July 1, 2019 through September 30, 2019.

At the end of the period, **one fund, the TIAA-CREF Social Choice Equity Fund, remains on “Watch” status, and no new funds qualify for “Watch” status.** At the April 2018 SIB meeting, the SIB elected to keep the TIAA-CREF Social Choice Equity fund on “Watch” status as Meketa Investment Group conducts more research to identify a benchmark more aligned with the strategy’s ESG focus. Meketa Investment Group has outlined the proposed options listed below for the Board’s consideration including the option to keep the TIAA-CREF Social Choice Equity Fund on “Watch” until the Russell 3000 ESG Index becomes available. This fund is discussed in more detail on the following pages.

### Performance of Funds on Watch Status As of 9/30/2019

Funds on Watch Status	Board Action Date	Watch Status Start Date	No. Months Since Watch Began	Excess Perf. Since Watch Began
TIAA-CREF Social Choice Equity	10/4/2017	7/1/2017	27	(0.1%)

## **BACKGROUND**

**New Funds Qualifying for “Watch” Status:** Meketa Investment Group has conducted a review of the underlying funds in the ScholarShare College Savings Plan (see also the 3Q 2019 ScholarShare 529 Plan Investment Performance Status Report) and determined that no additional funds qualify for “Watch” status at this time.

**Funds Currently on “Watch” Status:** As of September 30, 2019, one fund, the TIAA-CREF Social Choice Equity Fund, remains on “Watch” status for performance concerns. The fund is discussed in further detail below.

**TIAA-CREF Social Choice Equity Fund:** The fund was placed on “Watch” status for performance concerns upon breaching the long-term investment monitoring guidelines as per the Program’s *Monitoring Procedures and Criteria* as of the period ended June 30, 2017.

## **INVESTMENT ROLE IN PROGRAM**

The investment seeks a favorable long-term total return that reflects the investment performance of the overall US stock market while giving special consideration to certain environmental, social, and governance (“ESG”) criteria. Under normal circumstances, the fund invests at least 80% of its assets in equity securities. The fund attempts to achieve the return of the U.S. stock market as represented by its benchmark, the Russell 3000 Index, while investing only in companies whose activities are consistent with the fund's ESG criteria.

## **HISTORY AND ORGANIZATIONAL STRUCTURE**

In October 2014, TIAA completed its acquisition of Nuveen Investments. In 2016, the executive management, distribution teams, marketing organization and other non-investment functions of TIAA-CREF Asset Management and Nuveen Investments were combined into a unified operating structure. In January of 2017, the company rebranded the organization as Nuveen to deliver all their capabilities under one name and operating mandate; Nuveen has become the umbrella brand for TIAA’s asset management capabilities, including TIAA Investments, which oversees TIAA-CREF branded mutual funds.

Nuveen brings together the investment heritage of two 100-year-old companies and the specialist knowledge of their affiliates to be a global asset manager dedicated to helping their clients achieve their investment goals. Nuveen has been providing investment solutions and strategies to a wide range of clients worldwide, including institutional investors, intermediaries, plan sponsors, investment and pension consultants, and individual investors. They are one of the largest global asset managers across multiple asset classes.

Teachers Insurance and Annuity Association of America® (TIAA®) has built its reputation on its long-term investment capabilities, below-average expenses and

seasoned portfolio managers. Their extensive capabilities give their portfolio managers access to investment opportunities throughout the world.

### **INVESTMENT TEAM**

Philip James Campagna is the lead portfolio manager for the fund. Mr. Campagna is a quantitative portfolio manager and has portfolio management responsibilities for all TIAA-CREF equity index strategies and the Social Choice Equity fund. He joined TIAA-CREF in February 2005, became a manager on the Social Choice Equity fund at the end of 2005, and has more than 15 years of investment experience. His prior experience includes seven years at Mellon Capital Management where he was responsible for several mandates and was an index strategy manager.

Lei Liao joined Mr. Campagna as a portfolio manager on the fund in May 2014. Mr. Liao is a managing director and equity index portfolio manager for TIAA. He has 13 years of industry experience, including several years at Northern Trust as a senior equity portfolio manager.

Both portfolio managers are responsible for the day-to-day investment management of the strategy. A team led by Amy O'Brien, Nuveen's Director of Social Investing, oversees the social screening for this strategy and several other socially screened portfolios. The team has grown over recent years and had 18 members as of January 2019, eight of whom were hired in 2018 in a conscious effort to boost Nuveen's ESG capabilities.

### **INVESTMENT PHILOSOPHY AND APPROACH**

The Social Choice Equity fund's underlying philosophy is to offer competitive returns consistent with the performance of the Russell 3000 Index while giving special consideration to certain ESG criteria. The strategy seeks returns consistent with a broad U.S. core equity benchmark and a portfolio that has higher ESG performance quality relative to the benchmark.

TIAA's ESG criteria for the Social Choice Equity fund seeks to include companies that are leaders within their respective sectors on ESG performance. This performance should reflect a company's positive and negative impacts on its key stakeholders: employees, communities, customers, suppliers, and the planet. Public company performance evaluations should be based on the ESG factors most relevant to the industry a company operates in while also reflecting a company's adherence to international norms and conventions. Typically, ESG performance categories can include: environmental factors related to climate change, natural resource use, waste management, and environmental opportunities; social factors related to human capital, product safety, and social opportunities; and governance factors related to corporate governance, business ethics, and government & public policy.

Additionally, the eligible universe:

- Has no categorical industry exclusions; however, companies' exposure to historically controversial businesses (e.g., alcohol, firearms, tobacco) is

incorporated into their overall ESG performance assessment. While not automatically excluded from the fund, companies with exposure are typically ineligible for inclusion.

- Balances considerations of company strengths and weaknesses in ESG performance.
- Leverages a research process that is built upon diverse sources and the input of multiple stakeholders.
- Results in a portfolio with significantly higher ESG performance than the benchmark.

Consistent with the approach used in all TIAA Asset Management's Social Choice products, TIAA partners with leading independent ESG research providers to implement the ESG guidelines and criteria they have established for the fund. Their partnership with established ESG research partners increases the transparency of the ESG evaluation processes and decisions and provides TIAA Asset Management's equity portfolio managers with broadly diversified and reasonably sized eligible investment universes from which to build portfolios that can achieve their investment mandates.

The team has developed a comprehensive and robust due diligence process to evaluate existing and potential ESG research partners. All potential research partners are assessed per an internally developed framework that includes consideration of the partner's track record and history in ESG research and analysis, analytical capabilities, sources of data utilized, comprehensive factors that encompass a broad range of ESG issues, and consistent ESG methodologies applied across regions.

Nuveen's responsible investing team currently works in collaboration with the social-investment department at MSCI, one of the two largest socially responsible investing research firms in the world. The MSCI team does most of the detailed SRI analysis of individual companies, while Nuveen's team focuses more on the big picture, deciding what screening criteria the strategy should use, as well as overseeing corporate engagement and community investing. The strategy formerly used a standard set of ESG criteria from MSCI, but in 2018 Nuveen and the MSCI teams collaborated to create customized criteria for the strategy. Now, the ESG score threshold for companies to be eligible for portfolio inclusion is generally higher, but ESG momentum is also taken into account, thus advantaging firms with an improving ESG profile. Following more than a decade of stability, these recent changes were designed to improve the strategy's environmental, social, and governance profile, and isn't expected to necessarily have much effect on returns. After the social responsible team at MSCI ranks the stocks in the MSCI Investable Market Index according to how well they meet ESG criteria established by Nuveen's team, the quantitative team at TIAA-CREF narrows the acceptable list.

The portfolio managers for the Social Choice Equity fund begin with the eligible universe of securities and, combining industry-recognized optimization techniques with proprietary enhancements, seek to match the risk characteristics of the fund's underlying benchmark: the Russell 3000 Index. The intent is to neutralize, to the extent possible, the inherent biases introduced by the constrained universe of securities. Using a non-

proprietary, industry-recognized risk model, the team can avoid unintended exposure to any common or security-specific sources of risk. Its models are designed to replicate the risk characteristics of the Russell 3000 Index and do not try to identify specific stocks that will perform better or worse than the Index. This results in a well-balanced and diversified portfolio that allows them to better track the benchmark with minimal risk. The portfolio's sector weightings do not deviate too far from the benchmark because the process is designed to avoid large sector bets. The fund keeps underweightings in certain industries, such as big oil companies and money-center banks, and overweightings in other areas to keep sector weightings close to the benchmark. These differences frequently help or hurt the fund relative to the broader market in the short-term but have tended to balance out over time. Since Mr. Campagna joined the portfolio management team in late 2005, there has been less of an emphasis on excluding companies and more on finding stocks that best fit a set of positive criteria.

The risk model incorporates industry and style factors to capture risk due to the sources common to the universe of equity securities and a sub-model to capture security-specific risk. The models use covariance factors to target risk characteristics like the Index, including 13 fundamental factors and 55 industry group factors. The risk model is reviewed periodically by BARRA to ensure relevance, accuracy, and reliability. While there are no quantifiable formal tracking error guidelines, ex-post tracking has generally been in the range of 100 to 150 basis points versus the underlying benchmarks.

The investment team typically sells or trims a position when either the optimization model or the risk model recommends a reduction in a stock's weighting due to changes in the stock's or the benchmark's characteristics. If a stock needs to be eliminated because of ESG criteria, a sale is initiated in an orderly fashion to minimize market impact.

## PERFORMANCE

The fund generated mixed results against its prospectus benchmark, the Russell 3000 Index, across the various time periods reported. The fund outperformed its benchmark over the most recent quarter and trailing 1-year and matched over the trailing 3-year period. Over the trailing 5-year period and Since Addition to the program, the fund underperformed by (70) and (10) basis points, respectively. Some stocks that are in the Russell 3000 Index are not part of the fund's eligible investment universe due to the exclusion of certain stocks based on the fund's ESG criteria; the social screening eliminates some stocks that are prominent in the benchmark (i.e., Facebook, Exxon Mobil, etc.). Thus, some individual securities in the eligible universe may be either overweighted or underweighted relative to the benchmark, which is determined through quantitative modeling.

For the quarter, the fund modestly outperformed the Russell 3000 Index by 80 basis points. Despite concerns about slowing global growth and continued trade friction between the US and China, US stocks delivered positive third-quarter results. Two rate cuts by the Federal Reserve provided a supportive backdrop. On a sector basis, consumer discretionary and consumer staples contributed the most to the Fund's relative performance, driven by stock positioning in those sectors, while energy lagged. Not

owning AT&T Inc. or JP Morgan Chase detracted from performance. The two largest individual contributions came from not owning Pfizer Inc. or Johnson & Johnson, as these stocks posted negative returns in the third quarter, lagging the overall market. Both companies are ineligible for inclusion in the Fund based on ESG criteria.

**Trailing Performance Results, Net of Fees**  
*Ending September 30, 2019*

Fund	Quarter	1 Year	3 Years	5 Years	Since Addition (12/2011)
TIAA-CREF Social Choice Equity	2.0	4.0	12.8	9.7	10.9
<i>Russell 3000 Index</i>	1.2	2.9	12.8	10.4	11.0
<b>Difference</b>	<b>0.8</b>	<b>1.1</b>	<b>0.0</b>	<b>(0.7)</b>	<b>(0.1)</b>
Percentile Rank*	29	41	40	42	41

\*IM US Large Cap Core Equity Universe. 1 = Best, 100 = Worst.

The fund's results placed above the Large Cap Core peer median across all time periods measured and short-term results earned the fund "Positive" status under the short-term criteria.

The fund earned a Morningstar Sustainability Rating of 'Above Average,' which is down from last quarter's 'High' rating. The slight downgrade is the result of MorningStar's new rating criteria. Beginning in November, the Morningstar Sustainability Rating incorporates a concept of materiality by adopting a new company-level ESG risk framework developed by Sustainalytics. The above average sustainability markings are a sign that the fund has done a good job of adhering to ESG standards. The fund's Sustainability Score ranked in the top 25% of its category. When looking at other institutional Large Cap Blend funds with a Morningstar Sustainability Rating of 'Above Average', the TIAA-CREF Social Choice Equity fund trailed the custom peer median over the Since Addition period, but outperformed over all other periods measured.

Annualized Risk-Adjusted Performance				
	1-year	3-year	5-year	Since 12/2011
<b>TIAA-CREF Social Choice Equity</b>				
Return	4.0%	12.8%	9.7%	10.9%

<b>Russell 3000 Index</b>				
Return	2.9%	12.8%	10.4%	11.0%

\*87 funds as of 11/11/2019

Since being added to the Program in late 2011, on a calendar year basis, the fund has struggled versus its benchmark over five of the last seven years. In 2012, the fund trailed about two-thirds of its peers and the Russell 3000 Index by (2.4%) as not holding Apple stock in the portfolio detracted. The portfolio posted strong gains and ranked in the top quartile of the peer group in the bull market of 2013; this time, the absence of Apple stock

benefitted results as the stock struggled and performance improved to the Acceptable range throughout the period. In 2014 and 2015, the fund underperformed the benchmark by (1.4%) and (2.9%), respectively. During these periods, the fund’s exclusion of certain ineligible holdings negatively impacted performance. For 2015, notable names that were not owned by the fund due to the ESG criteria included Amazon, Facebook, and General Electric; these specific exclusions that produced strong results detracted from relative results. The fund’s performance improved in 2016 to exceed the benchmark by 80 basis points and ranked in the top quartile of the peer group. The fund has exhibited a historical tendency to perform relatively well in speculation-driven bull markets where risk is favorable. Over the two most recent calendar years (2017 and 2018), the fund performed roughly in-line with the benchmark and the peer group.

**Calendar Year Performance Results, Net of Fees**  
*Ending December 31*

Fund	2012	2013	2014	2015	2016	2017	2018
TIAA-CREF Social Choice Equity	14.0	34.3	11.2	-2.4	13.5	20.9	(5.5)
Russell 3000 Index	16.4	33.6	12.6	0.5	12.7	21.1	(5.2)
<b>Difference</b>	<b>(2.4)</b>	<b>0.7</b>	<b>(1.4)</b>	<b>(2.9)</b>	<b>0.8</b>	<b>(0.2)</b>	<b>(0.3)</b>
Percentile Rank*	69	20	53	75	16	50	49

\*IM US Large Cap Core Equity Universe. 1 = Best, 100 = Worst.

The graph below shows the cumulative relative results of the TIAA-CREF Social Choice Equity portfolio since being added to the Program in late 2011. A VRR of greater than 1.0 would represent outperformance of the portfolio versus its respective benchmark. It is evident that the portfolio’s relative underperformance soon after being added to the Program has had a significant impact on longer-term results and will likely continue for some time to come.

**Long-Term Performance - Value Relative Ratio (VRR)**  
 (Since Inception - 9/30/2019)

When evaluating the fund on several quantitative factors, the fund’s strict ESG focus will cause the fund to deviate from its benchmark, but the strategy’s use of quantitative modeling should result in overall risk characteristics similar to that of the index. The table below summarizes the fund’s 5-year portfolio statistics versus its benchmark.

**Risk/Return Stats  
 (5-Years ending 9/30/19)**

	Return	StdDev	Alpha <sup>1</sup>	Beta <sup>2</sup>	Sharpe Ratio <sup>3</sup>	Up Mkt Capture	Down Mkt Capture
T-C Social Choice Equity	9.69	12.08	-1.06	1.00	0.74	96.60	102.83
Russell 3000 Index	10.44	12.07	0.00	1.00	0.81	100.00	100.00
Custom Peer Group Median	11.94	12.36	-1.52	1.00	0.83	96.10	101.09

Versus the benchmark, the fund has exhibited a similar level of volatility (as measured by Standard Deviation). The fund’s Beta also remains in-line with the benchmark, while it exhibited a slightly lower Sharpe Ratio. Reviewing these statistics, it is evident the fund has been able to meet its risk objectives while being consistent with its investment philosophy and process.

**RECOMMENDATION**

Upon reviewing the performance of the TIAA-CREF Social Choice Equity fund, Meketa Investment Group continues to find the long-term performance deviations versus its current benchmark to be reasonable. The fund has delivered long-term results in-line with peer ESG funds and has demonstrated risk characteristics like the benchmark, therefore meeting its investment objectives while maintaining its investment philosophy.

At the April 2018 SIB meeting, the SIB elected that the TIAA-CREF Social Choice Equity fund remain on “Watch” status. The SIB requested that Meketa Investment Group conduct research to possibly identify a benchmark more closely aligned with the strategy’s ESG focus that can be used for performance monitoring purposes. Upon research, Meketa identified the Russell 3000 ESG Index as an ideal replacement benchmark. The benchmark would be a sustainable version of the fund’s prospectus benchmark, the Russell 3000 index, however the benchmark has yet to be created and

---

<sup>1</sup> Alpha: Is the difference between a Manager’s performance and the Manager’s expected performance given its market sensitivity or Beta. It is used as a measure of value added by a Manager. A positive Alpha indicates that a Manager has performed better than its Beta would predict. In contrast, a negative Alpha indicates the portfolio has underperformed given the expectations set by Beta.

<sup>2</sup> Beta: Is defined as a Manager’s sensitivity to the market movements and is used to evaluate market related or systemic risk. Beta is a measure of the linear relationship, over time, of the Manager’s returns and those of the Benchmark.

<sup>3</sup> Sharpe Ratio: Is used to characterize how well the return of the portfolio compensates for the risk taken. The higher the portfolio’s Sharpe Ratio, the better the portfolio’s returns have been relative to the risk taken on. Sharpe Ratio = (Portfolio Return - Risk Free Rate) / Standard Deviation.

while we believe it is a natural progression for it to be rolled out as part of FTSE Russell's index offerings we are not aware of a timetable for its release.

Since it is unclear when the Russell 3000 ESG Index will become available, Meketa suggests the options listed below for the Board's consideration:

1. Keep the TIAA-CREF Social Choice Fund on "Watch" until the Russell 3000 ESG Index becomes available.
2. Ease the monitoring criteria for the fund so that the fund's long-term performance no longer violates the probationary band. This would involve increasing the probationary performance band to VRR of less than or equal to 0.93. This would be justified because the current Watch criteria are designed to monitor the performance of traditional active managers whereas the Fund is designed to achieve a specific capital market exposure (to securities with strong ESG characteristics) and not to necessarily outperform a capitalization weighted benchmark.
3. Remove the fund from Watch Status and note the qualification that an appropriate benchmark is not yet available. The fund would continue to be monitored closely and a footnote would be added stating that the fund remains below the long-term Watch criteria, but that the Board has elected to remove the fund from the formal Watch list.
4. Remove the fund from the Program and replace with a similar ESG related fund. Given the fund's strong performance and low fees within the ESG peer universe, Meketa believes there is a low probability of selecting a superior ESG-oriented fund. As such, this option is not Meketa's preferred solution.

*Meketa Investment Group recommends that the SIB explore the proposed options listed above including the option to keep the TIAA-CREF Social Choice Equity Fund on "Watch" until the Russell 3000 ESG Index becomes available.*
